DEFINITE PLAN TO LOCATE FACTORY IS LAUNCHED HERE

Committee is Appointed After Banquet to Co-Operate With Will Dill and John Crowley

TO MEET WEDNESDAY NIGHT

Mr. Dill Submits Several Definite Propositions Which Demand Immediate Attention

MANY SPEECHES ARE MADE

Business Men Pledge Their Support to Worthy Stock Company if One Can be Found

Rushville business men had an "experience" meeting last night following a banquet at the Windsor hotel and the upshot of the affair was the appointment of a committee which will meet Wednesday night at 7:30 o'clock at the city council chamber with Will Dill, who has been working with John Crowley on several factory propositions. The committee will act with Mr. Dill in investigating several factory offers which have come to his attention.

The committee named last night after the banquet by the executive committee of the Rush County Business Men's association is composed of the following: Will Abercrombie, Earl H. Payne, E. R. Casady, Samuel L. Trabue, J. L. Cowing, A. H. Schriebe and R. H. Jones.

Many speeches were made in response to requests by S. L. Trabue, the toastmaster, and the predominating note of them all was that a stock company of merit would be the proper sort of a factory to bring to Rushville. Many pledges were made to subscribe stock to a good factory proposition. The idea was advanced that the factory men who did not think enough of his own proposition to invest some of his own money in it could not be expected to get results. On the other hand, many were of the opinion that if a man offered to locate here and had available assets such as good machinery and a patent on a salable article with visible business, and still did not have enough cash to finance the enterprise, it should be backed financially if found worthy.

While talking about locating factories, Rushville business men learned something about local man-

DEGREE STAFF GOES TO CONNERSVILLE

Uniform Rank, Knights of Pythias, Team Will Give Rank Degree There This Evening

SUBORDINATE LODGE PLANS

Members of the Uniform Rank, Knights of Pythias degree staff will go to Connersville tonight to give the rank degree. The staff has practiced several times for the appearance tonight and expects to uphold and add to the creditable reputation it already has.

The degree staff of the subordinate lodge has two engagements in the near future, both of them county meetings. They will give the first degree a week from tonight at Shelbyville and on April 6 they will work the same degree at Connersville. A big six o'clock banquet will be served at Shelbyville.

Manufacturing institutions, and how they had been thriving. The toastmaster called on Theodore Heeb, secretary of the Rushville Glove company, which has made such a phenomenal record without any outside assistance whatever. The payroll has been doubled many times since the factory was started and sixty-five machines are now being operated. He said that if the company had room to expand, the capacity could be doubled right now because they had the business.

Also, the banqueters learned from a stockholder of the Rushville furniture factory that institution is flourishing; that it has a larger payroll at this time than ever before in its history. It is a factory which was located through the industry of Rushville men and is backed wholly by local capital.

A. Bogue, secretary of the business men's organization, who was the first speaker, counseled co-operation on the part of the business men in an effort to improve Rushville and bring new industries here. He urged that every business man forget all petty differences and do all in his power to advance the interests of Rushville.

Mr. Heeb advised that small, stable industries be located instead of large factories employing a large number of men. This is the conservative idea which has always been uppermost in the minds of Rushville business men. They have guarded against a condition that would bring about an industrial depression in bad times such as some neighboring cities have experienced. Mr. Heeb said that co-operation was the keynote. He declared it was not necessary for a man to neglect his own business, but that he could say a good word for all businesses and for his competitor as well. He said he thought as much of Rushville as anyone in Connersville or Newcastle thought of their homes and predicted that Rushville would be flourishing when other cities were having a difficult time to exist.

Will Dill was called on by the toastmaster and told about the expansion of Arbuckle and company's business and the opening of the foundry here in connection which has brought several families to Rushville. Mr. Dill explained how he had been asked by Mr. Crowley to assist him in answering the correspondence which had come through the inquiry for factories. He said he had two good propositions which demanded immediate attention.

Hugh Mauzy suggested that Mr. Dill lay before the meeting whatever definite propositions he had, and this suggestion turned attention to definite action which resulted. Mr.

TO BE BURIED AT FAIRVIEW

J. H. McFadden, Formerly of Gings, Expires at Ben Davis, Ind.

Joseph H. McFadden, 70 years old, a former resident of Union township, died yesterday at his home in Ben Davis, Indiana, from double pneumonia. Mr. McFadden lived most of his life near Gings and left there twelve years ago, moving to Ben Davis. He is survived by his widow and two daughters, the Misses Daisy and Ethel McFadden. The funeral services will be conducted tomorrow at the late residence and the remains will arrive here on the 2:20 o'clock traction car and taken direct to the Fairview cemetery for burial. The casket will be opened at the grave.

J. F. GILLESPIE STRICKEN ON CAR

Retired Methodist Minister Suffers Attack of Neuralgia of Heart on Way to Connersville

TAKEN OFF CAR AT GLENWOOD

Dies Within Five Minutes After Doctor Reaches Him—Lived Here for Sixteen Years

James F. Gillespie, 58 years old, a retired Methodist minister of this city, died suddenly this morning in the traction station in Glenwood where he was removed after being stricken on a car enroute from this city to Connersville. Death is believed to have been caused by neuralgia of the heart.

Mr. Gillespie suffered an attack last night after he had completed some work at his grocery store in East Eighth street and for a time was in a serious condition, but soon regained his strength. This attack occurred at his home in North Maple street. This morning he complained of not feeling well, but insisted on going to Connersville where he had some business to attend to.

While the car was approaching Glenwood he suffered an attack and was removed to the traction station and a physician called. He died about five minutes after the physician arrived. Coroner Green has not returned any verdict. Mr. Gillespie had been in poor health for some time, but his death came as a shock to his family and a wide circle of friends.

The Rev. Mr. Gillespie spent a total of nine years in the ministry. His last church in the Methodist conference was at Carthage sixteen years ago. At that time he retired on account of poor health. Since he retired from the ministry he had lived in this city. Although he was not actively engaged in the ministry he always took a great interest in church affairs and followed closely the workings of the conference.

He is survived by the widow and four children, Miss Anna Gillespie of Valparaiso, Indiana, Mrs. Mert Wolcott, Mrs. Francis Crowell and one son, Francis Gillespie.

The funeral services will be conducted Thursday afternoon at two o'clock in the St. Paul's M. E. church by the Rev. W. M. Whitsitt and burial will take place in East Hill cemetery.

DEATH PRISONER ESCAPES

David Overton and Six Others Get Out of Birmingham Prison

(By United Press.) Birmingham, Ala., March 20.—David Overton, convicted of the murder of Probate Judge Lawler, and under death sentence, escaped prison today with six other prisoners. Overton left Birmingham in an auto and it is believed that his friends planned the escape.

Overton's trial for murder was Alabama's most sensational murder case. Two suicides followed the death of Judge Lawler.

RELIEF FUND TO CLOSE TOMORROW

Last Opportunity for Giving Money to Add to Rush County's Contributions Will be Given

FUND IS ABOVE \$2,000 TODAY

Goal Set for County is Almost Reached and it is All Raised Within One Week

The Rush county fund for the relief of people who suffered loss of property in the tornado at Newcastle Sunday before last will be closed tomorrow. So if there are those who have been considering a subscription to the fund, they should make it at once so that the sum will serve to increase the total raised in Rush county.

The sum of \$71.74 was raised today and added to the fund, bringing the total to \$2069.24. This is going close to the goal set for Rush county, \$2500, just one week ago today. There were many who did not think it could be done, but in the short space of a week, almost the sum which practically everyone thought too high has been subscribed.

Mayor Bebout today sent a draft for \$42.54, which makes the total cash forwarded to date \$1321.79. This is regarded as a notable work on the part of the citizens of Rush county and is better than any other county outside of Marion and Delaware has done.

The local committee decided to close the fund tomorrow because about every person in Rush county has been reached by some means or other. No effort has been made on the part of those in charge of the fund to solicit. The contributions have all been voluntary and represent Rush county's regard for her neighbor who met with misfortune.

The most substantial subscription reported today was that from the Rushville public schools. The school children gave \$36.74. They made their donations last Friday, but all of the rooms did not report until yesterday.

The M. E. church donation was

WILL HAVE BANK AND AN ELEVATOR

New Salem Arranges for Location of Financial Institution with Subscription of \$27,500

TO ERECT BUILDING AT ONCE

Grain From Elevator to be Built Immediately to be Transported to Laurel in Trucks

A boom has struck the town of New Salem, the metropolis of Noble township. At a meeting yesterday a state bank was organized and Frank Wright of Brookville will in a short time start work erecting an elevator. The bank and elevator are expected to add new life to the town and the people of the township are putting forth every effort to make both projects a success.

The bank proposition has been under consideration for some time and yesterday the stock was subscribed and the board of directors elected. The board was empowered to make all arrangements, including the erecting of a suitable building for a bank home.

The bank—to be known as the New Salem State bank—will be incorporated with a capital stock of \$25,000 and it is planned to use \$2,500 for the building and equipment. At the organization meeting yesterday the \$27,500 in stock to carry out the plans was subscribed. The stock has a par value of \$110 and has all been subscribed and will all be paid before the application for a charter is made. In all the stock is held by about 100 stockholders. More stock could have been sold yesterday so well did the idea of a bank take with the farmers and business men of the New Salem vicinity.

The directors elected were W. A. Norris, Date D. Barber, Spencer L. Ryan, John F. McKee and Charles J. Fisher. The only officer named by the directors was the president, this being given to John F. McKee. The other officers will be named as soon as possible.

The directors immediately began hunting for a location and at once took an option on the John O. Williams lot, just south of the general store.

Frank Wright who will erect the elevator, has started hauling material and will begin the erection of the plant within a few days. The elevator will be located on the southern edge of the town. Mr. Wright operates an elevator at Laurel. He plans to use Laurel as the outlet and shipping point and will use large auto trucks to carry the grain from the New Salem elevator to the railroad.

The citizens of New Salem have already planned for a big celebration and according to present plans the bank and elevator will be opened about the same time. On the day both are put in operation a banquet will be given and a celebration staged.

With a bank and elevator New Salem will have a rather unique distinction. Located in the center of a rich farming community will be the bank and elevator although no railroad passes through the town. New Salem is on the route of the proposed extension of the Indianapolis and Cincinnati traction line.

The bank building will probably be a brick and stone structure and possibly two stories high. It is hoped to have the bank in operation not later than July 1.

William Ray Gartin who was operated on for appendicitis recently remains in about the same condition.

Avowal of Hostilities by President as Result of Sinking of Three Ships Saturday Unlikely

CONSIDER AGGRESSIVE PLANS

Wilson and Advisers Discuss All Phases of Problem at Meeting This Afternoon

DECLARATION UNNECESSARY

Many Contend State of War Has Existed Since Steamer Algonquin Was Sunk, Wednesday

(By United Press.) Washington, March 20.—Actual declaration of war by the United States against Germany appeared today to depend upon the fate which will befall the first armed American liner.

It also appeared possible that an avowal of hostilities by the president against Germany will not result from the sinking of the three ships Saturday.

President Wilson has aggressive steps under consideration and this afternoon discussed all phases of the problem with the cabinet. Certain members of the cabinet when they arrived for the conference at the white house were outspoken in their view that a state of war now exists with Germany.

While some said they believed a declaration of war unnecessary they were firm in their stand for preparations for hostilities.

They indicated that when the president next addresses congress he would say a state of war has existed with Germany since last Wednesday when the steamer Algonquin was sunk.

United States, Great Britain and France will join in guarding the trans-Atlantic ships against German U-boats if present government plans materialize.

The administration expects to open immediate negotiations with these governments through the state department and the British embassies here.

With its proposed big fleet of patrol and chaser boats, the United States will be in a position to offer protection to commerce off the American coast while Great Britain will be expected to reciprocate in the barred zone.

The New York navy yard began work today on forty submarine chasers while tomorrow bids will be opened for two hundred or more speed boats.

Mobilization of the Atlantic fleet and of the naval militia has been considered for two or more weeks.

FIXES RIGHT TO PREVENT STRIKES

This is Contention of Railroad Managers Regarding Supreme Court Decision Yesterday

THE BROTHERHOODS DISAGREE

(By United Press.) New York, N. Y., March 20.—The Adamson law decision clearly establishes the right of the government to prevent strikes, railroad managers in a statement today declared. A difference of opinion has developed, brotherhood chiefs contending that the ruling of the supreme court does not give the government such power.

The switchmen's union which was awarded pay for 10 hours and working 8 hours by a board of arbitration recently will be taken up when the present contract signed for one year expires with the managers.

Furbelows and Flounces

Fashion decrees the returning to favor of the separate skirt and the making of the skirt a thing of furbelows, frills and flounces.

The stores—those "fashion indicators"—are already showing the new style notes and telling about them in their advertisements.

It used to be that the news columns of the newspapers made the fashion announcements first; but now adays the stores are so alert and so anxious to be first in these announcements that much of the latest fashion news is in the advertising columns.

Any person who wishes to keep up-to-the-minute on the new fashions must be a reader of the advertising in live newspapers like The Daily Republican.

The advertising columns are the mirrors that reflect the attractions of the merchants and manufacturers. These men live by service.

They must make their advertising timely and interesting just as they make their merchandise desirable and fair in price.

The news of the frills and furbelows is only one side of advertising.

Read the advertising and keep informed.

WILLS LOCK OF HAIR.

London, March 20.—A lock of hair of Mary, Queen of Scots was one of the valuable possessions disposed of by the will of Major Sir Foster Hugh Egerton Cunliffe, who met his death on the field of honor in France. The will said the heirloom would be found in the Major's safe and was to go to Sir David Kinloch.

STOMACH SYMPTOMS

A leading physician of Chicago says: "Merely easing the pain with narcotics to give relief is a long way from cure for stomach trouble. Besides the danger of neglect or inadequate treatment may lead to more serious maladies. What appear to be only minor troubles are often the symptoms of gall stones, acute indigestion, gastritis, constipation, auto-intoxication, yellow jaundice, appendicitis, cancer and ulcers of the stomach and intestines, or other fatal ailments." Stomach sufferers should take warning. Do not have blind faith in treatment that are giving no results. Much suffering could be avoided, many surgical operations prevented, scores of lives saved had Mayr's Wonderful Remedy been taken in time. It is not a long drawn out treatment. It acts on the very source and foundation of stomach, liver and intestinal ailments, eliminating from the system the hard, poisonous catarrhal accretions and shows them to you. Try a dose tonight—tomorrow your days of torture will be over and another friend will be added to nearly a million grateful human beings, many who declare Mayr's Wonderful Remedy has saved their life. Get it from your druggist today—tomorrow may be too late. For sale by Frank E. Wolcott and druggists everywhere. (Adv.)

HAVE NOT RECOVERED FROM SLEET STORM

Telephone Lines From This City to Mays, Falmouth and Raleigh Still Out of Commission

LARGE FORCE OF MEN AT WORK

Telephone communication from this city to Mays, Falmouth and Raleigh is still cut off due to the effects of the sleet storm which visited the county one week ago last night. Over one hundred poles were weighted down and broken on these three telephone lines alone and despite the fact that the telephone company has had a large force of men working for the past week it will still be two or three days before the lines will be in working condition.

The storm came just when the telephone company was congratulating itself on escaping any serious damage during the winter months. The telephone workmen have been handicapped on account of the condition of the ground. The ground has been completely saturated with water and the holes dug for the poles became filled with water before a depth of a foot was reached. This made the work slow and tedious. All other lines in the county are working, the northern part of the county being hit the hardest by the sleet storm.

DEFINITE PLANS TO LOCATE FACTORY LAUNCHED HERE

Continued from Page 1.
Manzy expressed the belief that Rushville will co-operate on any enterprise that is found worth while.

Mr. Dill then explained two offers which he had received for concerns that apparently are all right. This explanation was followed by a motion that the executive committee of the association be empowered to appoint a committee of such size as was seen fit to co-operate with Mr. Dill and Mr. Crowley to sift out a good factory proposition. Mr. Dill urged haste because of opportunities which needed attention at once and the committee was appointed after the meeting.

Will M. Bliss said he did not understand exactly Mr. Crowley's scheme for locating a factory, but was under the impression that he had planned to organize a stock company and erect a building, and then find a factory to occupy it. In response to the question, Mr. Dill explained that had been Mr. Crowley's original idea but he had found that each factory needed a building to meet its particular needs, so that the original idea had to be abandoned.

In addition to those already mentioned, short talks were made by Albert Winship, W. O. Feudner, Earl H. Payne, L. L. Allen, A. H. Schrieffer, Frank Wilson, E. R. Casady, Warder Wyatt and R. H. Jones.

In introducing one of the speakers, Mr. Trabue called attention to the coming constitutional convention and urged that all consider candidates on individual merits. He said we had all been fighting along political lines in elections, but this would be one occasion when politics should be forgotten. Mr. Trabue declared that the subject of taxation would be taken up by the convention and that it was probably the most important thing confronting the people of Indiana right now. He asserted that a man of good business judgment who knows how to apply his experience to all the fads and "isms" of the age would be needed as a delegate.

Fifty men sat down to the banquet, which was served in four courses.

WILL GET REQUEST TO RAISE RAIL RATES

Congress Will be Asked to Grant Increases to Meet Extra Cost Due to Adamson 8-Hour Law

OFFICIALS MAKE ADMISSION

Washington, March 20.—Congress at the coming extra session will be asked to pass a law granting increased freight and passenger rates to the railroads to reimburse them for increased wages they will be compelled to pay under the Adamson eight-hour law, railroad officials and members of the interstate commerce commission said today.

"Since the supreme court has decided that congress has the power to fix wages for the trainmen, then it also has the right to legislate railroad rates," a government official said.

GRAND DUKE INDUCED CZAR TO ABDICATE

This News Amends Grand Duke's Alliance With the People and Adds to Popularity

ACTION OF DUMA IS REVEALED

(By United Press.)
Petrograd, March 20.—The Grand Duke Nicholas amended his alliance with his people and added to his popularity today when it became known that it was he who induced the Czar to abdicate.

It was revealed that the grand duke held a lengthy audience with the Czar and urged this step upon him prior to the revolution and the abdication declaration.

One other step in the history making event made public was that the action of the Russian duma in resolving to overthrow the autocratic government was unopposed with the exception of 15 members who stood out for the establishing of a republican form of government without a vote by the people.

REFERS TO THE INTRIGUE

(By United Press.)
Washington, March 20.—While rejecting the Carranza peace plan and proposal for an embargo on shipments to the allies, President Wilson in his note to the Mexican government made public today, renews his suggestion for co-operation among neutrals for ending the war.

The president calls attention to the break in the relation with Germany and emphasizes the German-Mexican-Japanese plot recently discovered. The reason for mentioning this affair is taken to mean that Carranza despite several requests has denied all knowledge of it. These circumstances make it impossible for the United States to participate in the Carranza proposal for joint mediation at present.

Collars a Feature on The New Spring Coats

Garments that can be worn open as well as buttoned closely to the neck are emphasized in our stocks.

The plaited collar of the coat here-with illustrated is one of the season's best. Worn high about the neck, it is serviceable for cold days, and worn open it is a splendid summer wrap.

Styles are on straight lines, especially in the more staple garments that appeal to American Women. Belts and

double belts, odd-shape pockets, a few rows of stitching, a few well-placed buttons—all of these touches contribute to Spring's New Styles.

Coats are so new, so distinctive, that you will not want to wear the old one any longer. The new Baige shade will delight many this season. Other colors—Rookie, Periwinkle, Penelope, Young Leaf Green, Majenta and the perennially popular Navy.

Conditional Loyalty

Upon the condition that organized labor shall have "representation on all agencies determining and administering policies for national defense" a conference of labor leaders has adopted a resolution pledging its members, in peace or war, "to stand unreservedly by the standards of liberty and the safety and preservation of the institutions and ideal of our republic". Other conditions are stated, also, but that is sufficient as the basis for an analysis of a conditional pledge of loyalty.

The mere statement of this condition is an assumption that organized labor does not already have all the representation to which it is entitled under the institutions and ideals of the republic. Such an assumption is manifestly false. The Wilson administration was returned to power largely through the special efforts of organized labor. Organized labor has been freely consulted by the President. In fact, there was complaint prior to election that the head of the American Federation of Labor, more than any other one man, had the ear of President Wilson. Secretary of War Baker and Secretary of the Navy Daniels have long posed as the special advocates of the interests of the laboring man.

But it must not be overlooked that when organized labor asks for representation on any governmental agency separate and distinct from the representation which all other American citizens have, it is asking something in conflict with the "institutions and ideals" upon which the Republic was founded. Nowhere in the constitution nor in the debates attending the framing and adoption of that document, can there be found any intimation that any particular class of citizens should be entitled to special representation in any branch of our government. This is a government by all the people, of all the people and for all the people.

Because organized labor claims 3,000,000 members is no reason why it should have special representation.

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

There are more than 11,000,000 people engaged in agriculture, horticulture and forestry in this country, and they are asking no special representation on agencies for national defense. There are millions of workers in other lines than agriculture but outside the ranks of organized labor, and these are asking no speech representation.

Undoubtedly there are times, under the boss-ridden convention system of making nominations, when the working people of the United States could claim, with some show of reason, that they had not a due proportion of representation in the government. But the direct primary and the corrupt practices acts have changed all that. An overwhelming majority in both houses of Congress have been chosen in elections in which the vote of the poorest laborer in a factory counted as much as the vote of the chief owner of the establishment. The laborer on the farm or in factory had an equal voice with all other citizens in choosing public servants, and those chosen are the representatives of all.

Class loyalty conditioned upon class representation is no loyalty at all—no loyalty of dependable character. It is not the sort of loyalty the American citizen, either organized or unorganized, really feels. Temporarily overwhelmed by the consciousness of power, the labor leaders have expressed their own views and assumed them to be the opinions of the laboring people of the nation.

The true American places no condition or limitation upon his loyalty. He never has and he never will.

If we have to raise a great army there will be one grand rush to enlist, for soldiers are fed on SPUDS and BEANS.

This censoring the American press may be advantageous, but it has its drawbacks as well. Under its operation even the wildest of the yellow journals can not scare up more than a dozen war thrills a day.

The kaiser is welcome to all of Carranza he can swallow. We have too much regard for our stomach to even want a nibble.

Any one can "hang out the flag," of course. But how many will follow it?

RIGHT LINE BUT WRONG STOP

Walter Weaver Got Off Here and Landed in Police Court

It was the case of the right line but the wrong stop for Walter Weaver, colored, in police court Monday. He stated that he was enroute from Indianapolis to Cincinnati and intended taking the traction line as far as Connersville. Instead of going to Connersville he got off in the city. Weaver carried a basket of groceries with him when arrested late Saturday night. The police at first thought that he might be wanted in Indianapolis, but as there was no charge against him he was released.

SAYS HIS FAITH IS UNLIMITED

Tanlac's Work in Wife's Case Makes Elkhart Man One of New Remedy's Booster.

Elkhart, Ind., March 19.—"I have unlimited faith in Tanlac's power as a medicine," J. F. Phipps, paper hanger, of 900 Cedar street, this city said on January 26, Mr. Phipps is pleased with the new medicine because of benefits his wife derived from its use. Concerning her experience, he said.

"For thirty years my wife has suffered from stomach and kidney trouble and for a long time she also has been in an extremely nervous condition. Her appetite was very poor and the little food she did eat caused gas to form in her stomach and was never digested properly. She had almost given up hope of ever being any better when we heard about Tanlac.

"We read several statements in the papers given by people whom Tanlac had helped and everybody seemed to be so well pleased with the new medicine that we decided to try it. My wife has taken only two bottles of Tanlac now but the stomach and kidney troubles have disappeared entirely. In short, she has derived wonderful benefits through use of this medicine. Our daughter-in-law intends to take Tanlac now. She has watched Tanlac's work in my wife's case and believes it will help her in the same manner."

Tanlac, the Master Medicine, is especially beneficial for stomach, liver and kidney trouble, catarrhal complaints, nervousness, loss of appetite and the like and is fine for relieving the after effects of colds, la-grippe, pneumonia and the like.

Tanlac is now being specially introduced and explained in Rushville at F. E. Wolcott's Drug Store; in Arlington at Mrs. L. T. Davis's; in Carthage at J. H. McCarthy and Sons; in Milroy at Barton's and Sheppards.—(adv.)

PROMINENT MEN LOVERS OF GAME

Interesting Figures Compiled Show That Trap Shooting Has Large Following.

VICE PRESIDENT IS ONE

Roosevelt Never Had Much Liking For Breaking Clay Birds—Some Are Experts.

BY H. C. HAMILTON.
(U. P. Staff Correspondent.)

New York, March 20.—Interesting figures compiled by Peter P. Carney, Philadelphia booster of trap-shooting, show that many men, well known in this country, are ardent devotees of the trap game.

Among them he names Vice President Thomas R. Marshall, King George of England, King Alfonso of Spain, King Victor Emanuel of Italy, Gov. Walter E. Edge of New Jersey, Gov. Brumbaugh of Pennsylvania, Gov. Capper of Kansas, former Gov. Major of Missouri, former Gov. Wert of Oregon, Gov. Ferguson of Texas, John Phillip Sousa, the bandmaster, and many, many lesser lights in the public light.

Theodore Roosevelt and Amos Pinchot, Carney writes, are two men who long ago realized the value of outdoor exercise as personified in the use of a gun, but these two, he admits, have never displayed any great hankering for the tame method of killing birds built of clay.

Carney picks out a few mayors for public approval who are trap enthusiasts. Charles A. Fleming, mayor of Spokane, Wash., he says, broke 90 percent of the targets thrown for him at the Northwest Sportmen's association shoot last summer.

R. E. Duval, mayor of Belleville, Ill., a year ago tied for first place in the Southern Trapshooting Handicap at Memphis.

Mayor Thomas B. Smith of Philadelphia, is a member of a gun club and often takes part in contests.

NOTICE For the Improvement of a Highway in Jackson Township, Rush County, Indiana.

Notice is hereby given that a petition has been filed in my office for the grading, draining and improving with macadam a highway in Jackson Township, Rush County, Indiana, which petition is in the words and figures following, to-wit:

To the Honorable Board of Commissioners of Rush County, Indiana:

In the matter of the petition of Robert Holt et al. for the improvement of a highway in Jackson Township, Rush County, Ind.

Come now the undersigned and respectfully show to your Honorable Board that more than fifty of the undersigned petitioners are resident freeholders and voters of Jackson Township, Rush County, Indiana, and that said Jackson Township does not contain an incorporated town or city of Thirty Thousand inhabitants and contains no incorporated town or city.

Your petitioners would further show to your Honorable Board that there is now and has been for a number of years last past a public highway in said township described as follows: Beginning at a point in the center of the highway at the southwest corner of the northwest quarter of Section 10, Township 14, Range 9 east, on the east line of Posey Township and the west line of Jackson Township, thence due east through Sections 10 and 11, Township 14, Range 9 east, to a point where said road connects with the Robert Nixon et al. road.

Said petitioners would further show that the above described highway should be graded, drained and paved to the width thereof as now established, and that the same should be improved by grading, draining and paving with some other first class binder, or crushed rock, and macadam and a good binder or with concrete and that the same so graded, drained and paved will be of public utility.

Your petitioners would further show to your Honorable Board that said highway proposed to be improved is all in Jackson Township, Rush County, Indiana, and that the same is less than three miles in length and connects at the west end thereof with the Jackson Township line, and that the east end thereof connects with the Robert Nixon et al. road; and that a United States rural mail route passes over and along said highway.

Your petitioners would further represent that in view of the importance of said highway and the great amount of travel thereon, that it would be to the best interest of all the taxpayers in said Jackson Township, Rush County, Indiana, to have the same graded, drained and paved with some first class binder and permanent road material and they respectfully recommend that said highway be so graded, drained and paved in such manner.

CHURCH DANCES ARE THE LATEST

Ministers and Conservative Members Speculate on Success of Venture

OTHERS TO TAKE UP MOVIES

(By United Press.)

Richmond, Ind., March 20.—Ministers and many of the more conservative church members of the city are speculating as to the success of a new social system started by the Rev. R. D. Baldwin, rector of St. Paul's Episcopal church. Rev. Baldwin announced that he would permit dancing in the parish house.

Another step which the Richmond ministers are proposing to start, is the universal use of motion pictures in churches Sunday night to increase attendance at the services. The Ministers' association is considering the proposition. Popular film favorites will be booked and admission to the picture show will be contingent on attendance at the preceding sermon.

USE SINN FEINERS FLAG

Irish Display Colors of Revolutionists in Frisco.

(By United Press.)

San Francisco, March 20.—A green, orange and white flag—the same colors which waved over Dublin last Easter when Patrick Pearse and his followers rebelled against English rule—were the colors which decorated the Civic Auditorium today when San Francisco celebrated St. Patrick's Day. The flag was unanimously adopted by the St. Patrick's Day convention of several thousand Irishmen and friends of Ireland.

A parade of several thousand persons opened the day's festivities, which ended officially when exercises were held in the Auditorium.

BABY WEEK WORK TO SAVE MOTHERS

Plans For Celebration Include a Huge Educational Movement to Reduce Death Rate.

CHANGED SOME THIS YEAR

Heretofore Work Was For Saving Babies But Now it is to be Enlarged.

(By United Press.)

Washington, March 20.—Plans to make Baby Week celebrations throughout the country this year from May 1 to May 6, a huge educational movement for the reduction of morality among women at child-birth are under way at the Children's Bureau of the Department of Labor today.

Baby Week celebrations in the past have been directed more towards reducing infant mortality. The fact, however, that 15,000 mothers are dying annually from conditions incident to child-birth has opened up an even greater problem, the Bureau announced. Ignorance and neglect are the prime causes for this high mortality.

"Many women," one official at the Bureau said, "do not seem to realize how much their own health and the health of their children depends on the intelligent care of the mother before her baby is born. Baby week can help mothers in various ways and it will be made the starting point, this year, for certain concrete activities."

Plans now being completed, will include centers for mothers living in the country to gather and take prenatal educational work. The needs of rural mothers are less generally understood than those of city mothers and a rural nursing service is urged as one means of reducing the mortality rate in sections far removed from the city.

MUNCIE HOTEL CLERK EXPLAINS HANDSHAKING

(By United Press.)

Muncie, Ind., March 20.—The psychology of handshaking, as explained by Robert O'Shaughnessy, clerk at the Hotel Kirby, follows:

"The farmer and laborer, of course have callouses on their hands and cannot be mistaken. The man who has soft hands and says he is a farmer, arouses our suspicions.

"A minister is likely to hold your hand as long as you will let him. A traveling man usually gives a hard, quick grip. A doctor is inclined to advance his finger to your wrist. You get the idea of his wanting to feel your pulse.

"The lawyer is a frequent gripper. He has a tendency to try you on all of the fraternal orders of which he may be a member. He has developed the gripping habit at college and found it a valuable asset in his business, especially if he is a politician. Their clasps is a cross between that of a preacher and a salesman.

"A firm grip may be taken as a mark of sincerity. With your friends, it betokens more than a pleasure at seeing you indicates honesty and fairness."

DOYLE ASSISTS FLAPPERS

Creator of Sherlock Holmes Convinces London.

(By United Press.)

London, March 20.—A Conan Doyle, creator of Sherlock Holmes, has convinced London that there are too many flappers on the streets for the entertainment of soldiers and he has engineered the establishment of a number of "Bring-Your-Girl" clubs where the soldiers and their flappers can go and have a good time.

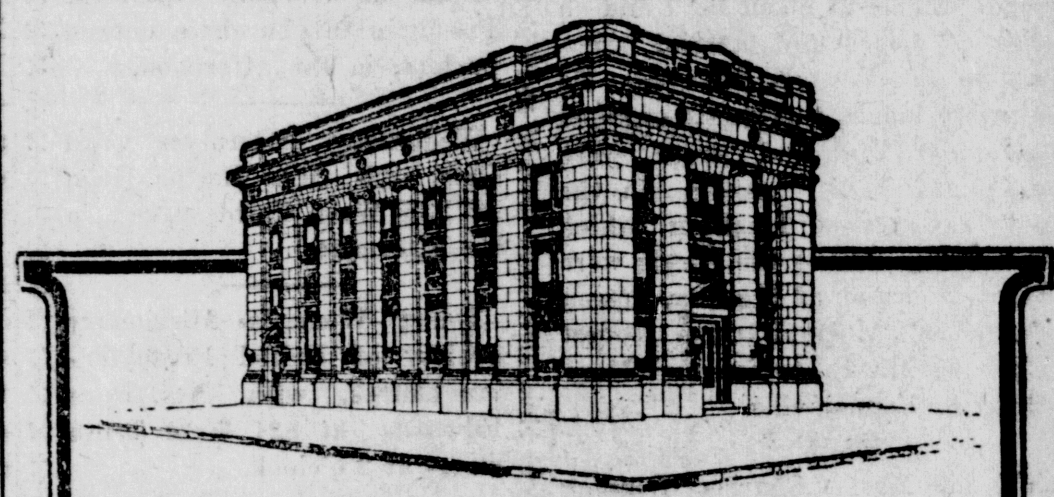

Lady Betty Belfour conceived the plan and a number of clubs have been organized. Lady Emmett was first to respond, equipping two club-houses. Each has a girl's club-room, a men's smoking room, a billiard room and two recreation rooms.

Mrs. Merrill Ball will entertain the members of the Social Dozen at her home in North Morgan street on Thursday afternoon of this week.

The divisions of the Immaculata Sodality are meeting in two places this evening. The first and second divisions are to be entertained at the home of Miss Sylvia Mullins and the third division is to meet with Miss Mary Moorman. The evening will be spent in making articles for the Easter Bazaar to be conducted by the Sodality.

A large number of friends gathered at the home of Mr. and Mrs. Herbert Gilson at their home at 820 North Sexton street last evening honoring the birthday of their daughter, Frances Katherine. The company came in about 8:30 and a series of games and musical selections on the Victrola followed. To the pretty music, the guests engaged in dancing. Pink and green were the predominant shades in the dainty two course luncheon which was served. Among the guests were several from out of the city, among them being Albert Barley, Robert Walke the Misses Arvien and Mary O'Brien of Connersville.

Mr. and Mrs. Charles Benning were very pleasantly surprised Sunday noon at their beautiful country home south of the city by a number of relatives and neighbors. The pitch-in dinner was given in honor of the birthday of Mrs. Benning. Those spending the day together in this pleasant manner were Mr. and Mrs. John Benning, Mr. and Mrs. John Vernon, Mr. and Mrs. Will Campbell and son, Charles, Mr. and Mrs. Thomas Hungerford, and children, Mr. and Mrs. Robert Campbell, Mr. and Mrs. John Campbell, Mr. and Mrs. Elmer Branam, Mr. and Mrs. H. C. Webb and son, Mr. and Mrs. Earl Priest and children, Mr. and Mrs. Rue Webb, Mrs. Israel Piper, and Mrs. Elizabeth Laughlin.

Loyal Women's Bible class of the Christian church, in church parlors at 2:15 p. m.

Psi Iota Xi, with Miss Marie Clawson at 325 West Seventh street, in the evening.

Loyal Daughters of Christian Sunday School, with Mrs. Charles Brown at 232 East Second street, in the evening. Assisting hostesses, Mrs. Fred Brown, Mrs. Theodore Abercrombie, Jr., and Mrs. Ernest Church.

Band of Workers of First Presbyterian church in church parlors, in the afternoon.

Wednesday Afternoon Card Club, with Miss Bertha Helm at 235 West Third street, in the afternoon.

Young Women's Missionary society of United Presbyterian church, with Mrs. Dora Edwards at 821 West Tenth street at 2 o'clock.

Mrs. Ed Chambers was elected president of the Musicales for the year beginning in September at the meeting of the Musicales held in the assembly room of the court house yesterday afternoon. The other officers elected were: Miss Norma Smith was re-elected vice-president; Miss Wanda Wyatt was elected secretary; and Miss Edith Buell elected treasurer. Another plan discussed during the business meeting was the giving of a noon lunch on Saturday March 31, in the room formerly occupied by Polk's hardware store. This fund will go toward the support of the music student which the Musicales is endeavoring to support this year.

Announcement was made of the meeting which is to be held April 2, for which an unusually interesting program is being arranged. At this time, the members of the Connersville Musicales will be the guests of the local musical organization. At one of the recent meetings, the local Musicales went to Connersville where they were entertained by the Musicales there at the home of Mrs. Clarence Waldron. Another meeting in the near future which will be one of the special meetings of the year will be the observance of Mother's Day on May fourteenth when the girls of the Musicales are to furnish the entire program.

Because of its novelty as well as because of the excellent rendition, the program yesterday was a very entertaining one. Mrs. Lon Kennedy, who had charge of the program on "Life Study in Tones," dealt with it in an unusual as well as delightful manner. Starting with the youth in babyhood, she led him through boyhood, his experiences as a lover, his marriage, his going to war, old age and death. Each of the stages was spoken of by Mrs. Kennedy, some of them being illustrated by readings and monologues by her which were well rendered. Each of the stages, too, was represented by several musical numbers appropriate in theme.

For the division of the program, "Infancy," Mrs. Will Amos sang a slumber song and Miss Norma Smith played a piano solo. "Boyhood" was illustrated by piano solos by J. Deryl Case and Wallace Beer and a vocal solo by Pauline Piper. The experiences of the young man as a lover were represented by a vocal solo by Mrs. Charles Offutt and piano solo by Miss Charlotte Tribbey. Miss Edith Buell sang a solo and there was a piano quartette of Mendelssohn's Wedding March for the "Wedding." As a "Soldier" the young man was represented by the "Cradle Song of 1915" sung by Miss Norma Smith and a piano quartette played by Miss Madden, Mrs. Chambers, Mrs. Bebout and Mrs. Aldridge. "Maturity" was represented by a trio rendered by Mrs. Francis Moor, Miss Leonora Norris and Mrs. Wol-

cott, Mrs. Parke and Mrs. Chambers played a duet and Mrs. Will Amos sang a solo for the stage "Old Age," and the close of the program was marked by the funeral march played by Mrs. Parke, Mrs. Bebout, Miss Madden and Mrs. Aldridge.

Invitations are out for the Kappa Alpha Phi dance to be given in Newcastle on March thirtieth in the Chambers-Baily hall for which music will be provided by the Mitchell orchestra of this city. It is to be an April fool dance.

Several promising plans for joint socials for the members of the Loyal Daughters and the Young Men's Circle of the Christian Sunday school were made at the meeting of the officers and the social committee of the two classes held at the home of the Rev. and Mrs. C. M. Yocum last evening. The entire evening was given over to the discussion of matters concerning the two classes.

A very pleasant evening was spent at the surprise given on Miss Bertha Whitton at her home north of Henderson on Saturday evening. The time was given over to the playing of games and enjoying several musical numbers. Dainty refreshments were served. Guests for the evening were the Misses Lena Vaughn, Josephine Junken, Inez Abernathy and Lavonne Lucas, and Ralph Jones, Clement Poston, Clarence Newhouse, Roy Ward and Ray Lucas.

At the meeting of the Watson Sunday school class held at the home of Mrs. James E. Watson last evening, several matters were decided upon by the 25 class members present. Ten dollars were pledged to the fund for Newcastle. It was also decided to serve a lunch at noon on Saturday of this week in the room formerly occupied by the Polk hardware store, beginning at 11 o'clock. A pleasant social hour followed when light refreshments were served.

GAINED TWENTY-FIVE POUNDS IN TWO MONTHS

KNOWING THAT SHE WAS GOING DOWN IN WEIGHT, HEALTH AND ENERGY, THIS LADY FINALLY FOLLOWED THE ADVICE OF FRIENDS AND TOOK PEP-SINCO.

For many years Mrs. G. suffered with indigestion. She could get no help. She doctored and took most every stomach remedy her friends recommended, but got little relief. She lost in weight till she was apparently nothing but skin and bone. What she ate as a rule caused misery and pain. She would bloat and was seldom without headache. Nothing agreed with her. She would get up in the morning with a bad taste-coated tongue and feeling of dizziness. The sight—the odor of savory foods nauseated her. She passed the day in misery and went to bed tired, worn-out and hungry.

This lady read, as you are doing, of Pepsinco. She heard of Pepsinco. Her friends used Pepsinco and were helped, but she thought Pepsinco was like other stomach remedies, helpful in minor cases only.

She was finally prevailed on to get a small package of Pepsinco. The first package did her so much good that she continued their use until, after a few weeks, she could eat with a relish ordinary foods.

In exactly two months she came up to her normal weight. Today she is happy and has every reason to be so. Her main trouble was indigestion, and Pepsinco is the best preparation to be had for indigestion and kindred ailments.

Pepsinco will help you, if you have the least trouble with your food. Sour stomach, sick headache, bloating, nausea, biliousness and heartburn are symptoms that Pepsinco will remedy. Don't doubt another minute, do as this lady did—get a small package and try it today. All druggists have it, or we will send a trial package free of charge if you will send your name to The Neuro Pharmacal Company, Wapakoneta, Ohio.

THINKS UNIVERSAL BILL WILL PASS

Senator James E. Watson, Sponsor
For Military Training Measure,
is Hopeful For It

COMING UP AT EXTRA SESSION

Senator From Indiana Believes Army
Bill Will be Benefit to Youth
of United States

Senator James E. Watson, who is
now on his way home from Wash-
ington, believes that the universal
military training bill will be passed
at the forthcoming extra session of
congress next month, according to a
statement given out at Washington
shortly before departing for Indiana.
Senator Watson, who is one of the
foremost promoters of this piece of
legislation, said, according to a
Washington dispatch:

"I believe that Congress will pass
a universal military training bill at
the coming extra session, I am for it,
heart and soul. It would be a great
thing for the youth of the land as a
matter of discipline, if for no other
reason. We have in this country to-
day a lot of idle, cigarette-smoking
boys who hardly know what the
word 'obedience' means. Compul-
sory military training would improve
the quality of our young manhood
immensely. Under a system of uni-
versal military training we could do
away with a standing army alto-
gether. Such a system would cost
the country about \$50,000,000 a
year, but in an era such as we have
reached when Congress appropriates
money with a scoop shovel that is
not relatively a large amount com-
pared with the other enormous ap-
propriations."

The plan of universal military
training advocated by Senator Wat-
son would require all young men
between 17 and 22 years of age to
give eleven months to military train-
ing. After the eleven months of
training they would have to spend
two weeks training in every year for
ten years in order "to brush up on
military tactics" as Senator Watson
expresses it.

Senator Watson has introduced in
congress "by request" the universal
military training bill prepared by
the general staff of the army. With
it he presented to the senate the
elaborate report prepared on the
subject by the general staff and ex-
pected to have it printed as a docu-
ment, to be circulated among the
people, but so far pacifist influences
have prevented it from being printed
by the government. However, the
bill has been printed and many
copies of it are being sent out. In-
diana is regarded as a pacifist state
and in order to ascertain just how
strongly it is committed to pacifism
Senator Watson is sending out many
letters to acquaintances to test out
the sentiment in their localities.

The New Discovery for the
Relief and Cure for
Chronic Skin Diseases

We are daily receiving letters of
praise from people who have been
cured by Amolox. Many of them tell
how, for years, they have tried dif-
ferent remedies and doctors in the
vain effort to find relief. Some be-
come discouraged and lost all hope
of ever being cured. E. R. Frisbee,
187 Sycamore St., Mansfield, O., writes:
"Our baby's face was covered with
eczema scales, sores and scabs. She
was a pitiable sight. We tried every-
thing. Took her to Pittsburg doctors
but were unable to find any relief
until we used Amolox. It cured her
within a short time."

Amolox Ointment alone will quickly
banish pimples, blackheads and cure
out all redness of the skin and cure
most forms of skin disease. Bad,
chronic cases of Eczema, Psoriasis,

Chalmers 7-Passenger Touring Car
Price \$1350 Detroit

Full Value for Every Dollar In this Chalmers, 7-Passenger Touring Car

Scan the list of other 7-passenger cars for the equal of
this Quality Chalmers. You will not find it. Only in
this Chalmers are combined so many real values. You
may pay \$300 to \$500 more and find nothing better.

Only a builder of long experience
and with a yearly output of thou-
sands could produce this car at so
low a price. Only thus can quality
of materials and of manufacturing
be combined with economy of pro-
duction. Because Chalmers does
this is the reason why this Chalmers
7-passenger Touring Car has no
competition at anywhere near its
price of \$1,350.

They shift easily, without clashing,
and properly used are practically
indestructible. The Chalmers type
of dry-plate, disc clutch is far in ad-
vance of other designs. Chalmers
rear axle is the same as used in ex-
pensive foreign and American cars.
It is silent, efficient, economical.

A Big Beautiful Body

Big—122 inch wheelbase. Beau-
tiful—because graceful in form,
hand-finished in Chalmers shops,
upholstered in genuine pebble-grain
leather, with new Scotch "fluted"
finish. Auxiliary folding seats, Pan-
tasote top, curtains open with the
doors, fasteners are the "lift the
dot" pattern.

Compare Quality— and Price

Think how great the difference
between this quality Chalmers and
other cars. Realize what unusual
value is here offered. You will go
much higher in price before you will
find any other to please you so well.
And all these claims we submit for
your decision. Come—try the car.
Investigate. Then only can you
decide.

These Prove Quality Claims

Chalmers claims a motor of unex-
ampled smoothness, of unusual
power. Prove it by examining
Chalmers Lynite pistons, 1/3 the
weight of the usual cast iron. These
give smoothness, less strain on
bearings, admit of higher power.
Compare the Chalmers crankshaft
with others. It is one-piece, special
steel, drop-forged, balanced in mo-
tion to a fraction of an ounce.

See the Chalmers Transmission

Gears are crucible nickel steel,
case-hardened and heat-treated.

BODY OF MURDERED MAN SENT TO OLD HOME

Thomas Cooper, is Assaulted by
Room-Mate Saturday Night at
Connersville and Dies Sunday

BODY TRANSFERRED HERE

The body of Thomas Cooper, a
machinist, formerly of Shelbyville,
who was murdered in Connersville
late Saturday night by two friends
in a fight over a dollar, was trans-
ferred here Monday while en-
route from Connersville to Shelby-
ville where the funeral will be held
and burial will take place.

William Eads and Harry Taylor,
also former residents of Shelbyville,
are held in the Fayette county jail
charged with slashing Cooper's
throat with the intention of killing
him. Cooper died early Sunday
morning and just before death im-
plicated Eads, whom Cooper said,
stabbed him with a knife when he
refused Eads a dollar. Cooper also
said Taylor struck him over the
head. Both Eads and Taylor were
intoxicated when arrested Sunday.

Cooper's body was found lying in
a pool of blood in the business dis-
trict of Connersville late Saturday
night by W. E. Sparks. He was re-
moved to his rooming house and re-
vived. When told he had but a few
hours to live, he told the story of
the assault. The Fayette county
grand jury is conducting an inves-
tigation.

Moline-Universal Tractor Horse vs. Motor Power

Edison says: "A horse is the poorest motor ever built. He eats 12,000 pounds of food a year. He eats the whole output of five acres. And yet his thermal efficiency is only two per cent."

On the road, the automobile and truck have displaced the horse. For driving and delivery work he is rapidly becoming a rarity. Even the most skeptical cannot close their eyes to this wonderful transition which has taken place almost in a night.

From time immemorial the horse has been the servant and companion of man. About him has been built a vast sentiment—and well deserved it is. His almost human intelligence, willingness and self sacrifice, have endeared this noble animal to mankind. But he belongs to the days of cheap land and cheap labor.

Mechanically the horse is built wrong. All the pulling is done with one hind leg, and the power is transferred through his back to the collar. The front legs merely serve to support his body. The fuel he uses is bulky, which makes the cost of utilizing it excessive.

Economically the horse has not kept pace with modern methods and costs. The value of horses has increased 143% during the last ten years. Feed and cost of care, and everything that concerns him has increased proportionately. Yet he has not increased in power or endurance. The annual feed bill for the 25,000,000 horses and mules in the United States is \$2,000,000,000—equal to the cost of operating our railroads. Yet a farm horse averages only 3 1/2 hours work a day through the entire year, and tires in six. It costs from ten to twelve cents per working hour to maintain a horse, and requires 23 minutes a day to care for him, or fourteen ten-hour days a year. The cost of horse labor is almost one-half the gross operating expense on the average farm.

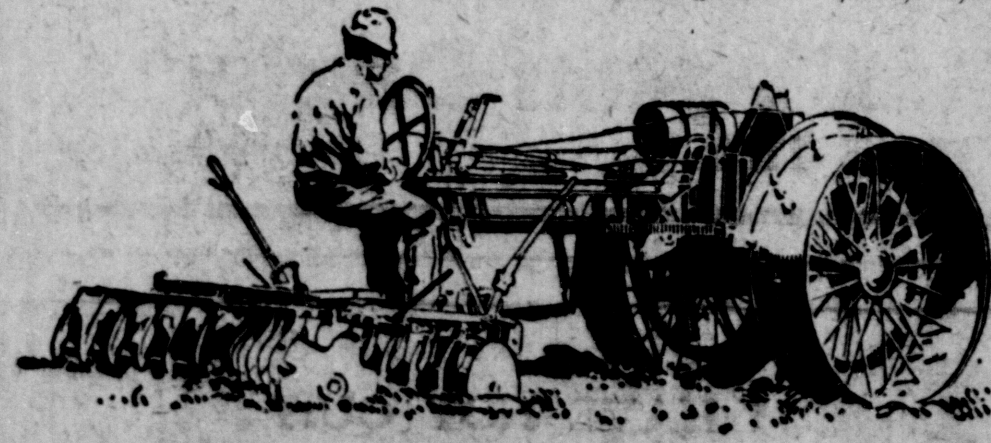

Most wide-awake farmers and users of horses realize these facts, and there is an insistent demand for cheap, efficient power. Scientific farming methods demand deeper plowing, more thorough soil tillage, more frequent cultivation, more speed—in short, more concentrated power.

Think of the vast areas of land, now used to raise horse feed, that would be released for human use; the extra men now required to care for horses who could do other work; the time and money saved; the drudgery done away with; the wonderful increase in efficiency, when the horse is displaced by motor power.

The problem of displacing the farm horse has been difficult. The many kinds of work, changing and unusual working conditions, and the adaptability of the horse, have made it much more difficult than simply displacing him on the road. Surprising as it may seem, in spite of the automobile industry, which is now one of the largest in the country, the number of horses and mules has increased during the last ten years. According to the department of agriculture, there were 25,731,000 horses and mules in the United States at the beginning of 1916; 25,674,000 in 1915; 24,148,580 in 1910;

show the auto, truck and ordinary tractor have failed to displace farm horses. The solution of this problem is the Moline and 21,625,000 in 1900. These figures are explained by the fact that more land is being farmed each year, and better methods are being used, which require more power. They also

Mrs. Ed Edwards and daughter Fay were passengers to Shelbyville Friday evening.

Mrs. A. E. Mahin spent the latter part of the week visiting her son Harry H. Mahin in Arlington.

James Bebout was a passenger to Shelbyville Friday evening.

Mrs. Nettie Willis returned Saturday afternoon from Dublin after visiting her sister Mrs. Elmer Fryman for a week.

Miss Alelia Inlow was a passenger to Shelbyville Saturday evening.

Mrs. Alice Heifner visited her son at Arlington the last of the week.

Mr. and Mrs. Herman Rice of Shelbyville visited with Mr. and Mrs. J. W. Gahimer Sunday.

Glenwood

Mr. and Mrs. Fred Hackman of Connersville visited Mrs. Hackman's mother here for a few hours Sunday afternoon.

The women of the M. E. church will present "The Old Maids Club" in Osborne's hall Saturday night, March 24. Reserved seats are on sale at Aiken's drug store.

The population of Glenwood is 360. The town corporation's officials consist of a clerk, treasurer, street

commissioner, marshal and three trustees. Frank Stamm is clerk and treasurer; M. B. Wright is street commissioner; Monroe Brooks is marshal and S. D. Turner and W. C. Runyan are two of the trustees, the third—Bert Timberman—having resigned. No one has been appointed to fill the vacancy. It is believed by some people that his successor should be selected and others think it unnecessary because there will be an election next fall. Glenwood has more miles of cement sidewalk to the number of people than any town in the state and it is also better drained than most towns. The surrounding country can not be bettered for farming and stock raising. Hogs are the principle kind of stock raised. There are two churches, a public school building, three church organizations, two Sunday schools, two general stores, a harness shop, an ice cream parlor, a hotel, pool room, two barber shops, two garages and two blacksmith shops.

The lecture course organization did not net more than five dollars at the supper Friday night at Osborne's hall. The members of the organization will sell lunch at the combination sale Thursday, March 22. The sale promises to be nearly as large as the last one. There are less miscellaneous articles to be offered for sale, but more stock.

The Rev. Daniel Ryan preached a very impressive sermon at the Methodist church Sunday morning. Mr. and Mrs. McCormick have transferred their membership from Connersville to the church here.

The usual services were held at the United Presbyterian church Sunday afternoon.

The Christian church holds services morning and night on the first Sunday of each month.

Perry Meek has gone to Martinsville for a few weeks' treatment and John Reed has returned from there, where he has been spending the winter.

Ross Jinks and Charles Fulton have returned from Florida much improved in health.

Many automobiles have mired down in the mud holes in the Rushville pike between Earl Ruff's and John Fulton's farms lately. The road is in very bad shape.

Most of the children who were out of school on account of measles have recovered. There are only four more weeks of school here. Many believe an effort should be made to make this a certified school by having an eight-months term.

An attempt will likely be made to enforce the old "blue laws" here and close every place of business in town on Sunday.

Several from here visited New-castle this week and saw the ruins left by the tornado.

To the Farmers!

Having tried the creamery business through the worst time of the year for cream, I have secured a written lease on the local creamery and am here to stay. I aim to make friends by dealing honestly with the public. That is the only policy that will win.

Do you think it justice to make one suffer for another person's failure? I have risked more this winter to try out the creamery than any farmer will ever risk in selling his cream to me. Some have wondered that we have been able to stay during the winter on such a small amount of cream. "There is a reason." In the first place, I am the only stockholder in the Burchard Creamery Company and I am running it on one-third the expense it cost the stock holding company.

We have worked up a good sweet cream trade and receive a good price for our buttermilk. The men having stock in the old company gave all of their time to other business. They hired men who cared more for themselves than for the success of their employer and ran the

creamery to suit themselves. Their butter was of poor quality and had to be sold mostly to commission houses. That was a sure road to failure.

I have a good butter maker. Ask any storekeeper in Rushville about our butter. We sell it all to stores and restaurants at the top price. The grocery keeper wants us to stay, Don't you?

The history of nine out of ten stockholding creameries is failure, but who ever heard of a creamery run by an individual to fail? Home industries should be supported by home folks, so long as an honest policy governs it. I am getting cream 70 miles away, from my relatives and friends. If they who know me, can trust me, why can't you? Give us a trial and we will not disappoint you. With your cream we can succeed and you will not lose by giving us your support.

For my financial responsibility, I refer you to the Peoples National Bank, where I carry my account.

Yours for success,

Harry Burchard

Nature Lovers and Civic Workers Plan to Stage Event and Use Proceeds for Park

HUNDREDS WILL TAKE PART

Production Will Cost \$15,000 and Will be Under Direction of Pittsburg Mah.

Chicago, Ill., March 20.—To save as a national park the beautiful stretch of sand dunes that border Lake Michigan along the Northern Lake coast of Indiana is the object of the project undertaken by a body of nature lovers and civic workers, who are planning to present a historical pageant and masque on the wooded hilly stretches of the dunes. The Dunes Pageant Association which is incorporated by some of the leading men and women from the varied circles representing the arts, civic, religious, business and other walks of life, is based on the vision of these people who are looking to save from commercialism a region a mile wide and fifteen miles long, which is said by nature lovers, scientists and artists to surpass in beauty any other spot in the Great Lakes territory and is unique in its natural formation.

The pageant and masque will be presented May 20 and June 3 on a spot within the area of the dunes, along the southern shore of Lake Michigan. The arrangements will be under the direction of Thomas Wood Stevens of Pittsburg. Cost of the production will be approximately \$15,000 and hundreds of persons will take part.

Furniture.

Do you live on your furniture, or for it?

Every once in a while our wife gets the idea that furniture is something sacred. And she gets to lavishing more loving care on rugs and racks and tables and chairs than she does on us.

Maybe that's natural. The furniture's home more than we are. But we resent the alienation of our wife's affections by gate-leg tables and things just the same. We are in favor of chairs to sit in. Pillows to lie on. Carpets that can take a little granulated tobacco without getting sick at the stomach; and lace curtains that can be crumpled out of the way when the occasion demands.

We want a house with nothing in it that can't be abused with impunity.

Fred Suhre of Columbus grew 530 bushels of shelled corn on five acres, or an average of 106 bushels per acre, at a cost of only 14 cents a bushel, and won the 1916 Corn Championship of Indiana.

Suhre Farm Results, 1916

Corn fertilized with Swift's Fertilizer, containing ammonia and phosphoric acid, produced an increase per acre over the unfertilized of . . . 19 bu.
Corn fertilized with only acid phosphate produced an increase per acre over the unfertilized of . . . 9 bu.
Additional yield per acre from the ammonia . . . 10 bu.

Norris McHenry, 1914 State Champion Corn Grower of Indiana, had the following results on two five-acre plots:

Where Swift's Fertilizer was used, the average yield per acre was . . . 112.1 bu.
Where competitors' fertilizer was used, the average yield per acre was . . . 93.1 bu.
Additional average yield per acre where Swift's Fertilizer was used . . . 19 bu.

The results from the Suhre and McHenry farms prove that Swift's Fertilizers are the best, and that Swift's Fertilizer containing ammonia is the most profitable.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

The ladies of the Baptist church will give a penny supper in the basement of the church, Wednesday evening, March 21st.

DEFINITE PLAN TO LOCATE FACTORY IS LAUNCHED HERE

Committee is Appointed After Banquet to Co-Operate With Will Dill and John Crowley

TO MEET WEDNESDAY NIGHT

Mr. Dill Submits Several Definite Propositions Which Demand Immediate Attention

MANY SPEECHES ARE MADE

Business Men Pledge Their Support to Worthy Stock Company if One Can be Found

Rushville business men had an "experience" meeting last night following a banquet at the Windsor hotel and the upshot of the affair was the appointment of a committee which will meet Wednesday night at 7:30 o'clock at the city council chamber with Will Dill, who has been working with John Crowley on several factory propositions. The committee will act with Mr. Dill in investigating several factory offers which have come to his attention.

The committee named last night after the banquet by the executive committee of the Rush County Business Men's association is composed of the following: Will Abercrombie, Earl H. Payne, E. R. Casady, Samuel L. Trabue, J. L. Cowing, A. H. Schrichte and R. H. Jones.

Many speeches were made in response to requests by S. L. Trabue, the toastmaster, and the predominating note of them all was that a stock company of merit would be the proper sort of a factory to bring to Rushville. Many pledges were made to subscribe stock to a good factory proposition. The idea was advanced that the factory men who did not think enough of his own proposition to invest some of his own money in it could not be expected to get results. On the other hand, many were of the opinion that if a man offered to locate here and had available assets such as good machinery and a patent on a salable article with visible business, and still did not have enough cash to finance the enterprise, it should be backed financially if found worthy.

While talking about locating factories, Rushville business men learned something about local man-

DEGREE STAFF GOES TO CONNERSVILLE

Uniform Rank, Knights of Pythias, Team Will Give Rank Degree There This Evening

SUBORDINATE LODGE PLANS

Members of the Uniform Rank, Knights of Pythias degree staff will go to Connersville tonight to give the rank degree. The staff has practiced several times for the appearance tonight and expects to uphold and add to the creditable reputation it already has.

The degree staff of the subordinate lodge has two engagements in the near future, both of them county meetings. They will give the first degree a week from tonight at Shelbyville and on April 6 they will work the same degree at Connersville. A big six o'clock banquet will be served at Shelbyville.

Manufacturing institutions, and how they had been thriving. The toastmaster called on Theodore Heeb, secretary of the Rushville Glove company, which has made such a phenomenal record without any outside assistance whatever. The payroll has been doubled many times since the factory was started and sixty-five machines are now being operated. He said that if the company had room to expand, the capacity could be doubled right now because they had the business.

Also, the banqueters learned from a stockholder of the Rushville furniture factory that institution is flourishing; that it has a larger payroll at this time than ever before in its history. It is a factory which was located through the industry of Rushville men and is backed wholly by local capital.

A. Bogue, secretary of the business men's organization, who was the first speaker, counseled co-operation on the part of the business men in an effort to improve Rushville and bring new industries here. He urged that every business man forget all petty differences and do all in his power to advance the interests of Rushville.

Mr. Heeb advised that small, stable industries be located instead of large factories employing a large number of men. This is the conservative idea which has always been uppermost in the minds of Rushville business men. They have guarded against a condition that would bring about an industrial depression in bad times such as some neighboring cities have experienced. Mr. Heeb said that co-operation was the keynote. He declared it was not necessary for a man to neglect his own business, but that he could say a good word for all businesses and for his competitor as well. He said he thought as much of Rushville as anyone in Connersville or Newcastle thought of their homes and predicted that Rushville would be flourishing when other cities were having a difficult time to exist.

Will Dill was called on by the toastmaster and told about the expansion of Arbuckle and company's business and the opening of the foundry here in connection which has brought several families to Rushville. Mr. Dill explained how he had been asked by Mr. Crowley to assist him in answering the correspondence which had come through the inquiry for factories. He said he had two good propositions which demanded immediate attention.

Hugh Mauzy suggested that Mr. Dill lay before the meeting whatever definite propositions he had, and this suggestion turned attention to definite action which resulted. Mr. Dill

J. H. McFadden, Formerly of Gings, Expires at Ben Davis, Ind.

Joseph H. McFadden, 70 years old, a former resident of Union township, died yesterday at his home in Ben Davis, Indiana, from double pneumonia. Mr. McFadden lived most of his life near Gings and left there twelve years ago, moving to Ben Davis. He is survived by his widow and two daughters, the Misses Daisy and Ethel McFadden. The funeral services will be conducted tomorrow at the late residence and the remains will arrive here on the 2:20 o'clock traction car and taken direct to the Fairview cemetery for burial. The casket will be opened at the grave.

J. F. GILLESPIE STRICKEN ON CAR

Retired Methodist Minister Suffers Attack of Neuralgia of Heart on Way to Connersville

TAKEN OFF CAR AT GLENWOOD

Dies Within Five Minutes After Doctor Reaches Him—Lived Here for Sixteen Years

James F. Gillespie, 58 years old, a retired Methodist minister of this city, died suddenly this morning in the traction station in Glenwood where he was removed after being stricken on a car enroute from this city to Connersville. Death is believed to have been caused by neuralgia of the heart.

Mr. Gillespie suffered an attack last night after he had completed some work at his grocery store in East Eighth street and for a time was in a serious condition, but soon regained his strength. This attack occurred at his home in North Maple street. This morning he complained of not feeling well, but insisted on going to Connersville where he had some business to attend to.

While the car was approaching Glenwood he suffered an attack and was removed to the traction station and a physician called. He died about five minutes after the physician arrived. Coroner Green has not returned any verdict. Mr. Gillespie had been in poor health for some time, but his death came as a shock to his family and a wide circle of friends.

The Rev. Mr. Gillespie spent a total of nine years in the ministry. His last church in the Methodist conference was at Carthage sixteen years ago. At that time he retired on account of poor health. Since he retired from the ministry he had lived in this city. Although he was not actively engaged in the ministry he always took a great interest in church affairs and followed closely the workings of the conference.

He is survived by the widow and four children, Miss Anna Gillespie of Valparaiso, Indiana, Mrs. Mert Wolcott, Mrs. Francis Crosswell and one son, Francis Gillespie.

The funeral services will be conducted Thursday afternoon at two o'clock in the St. Paul's M. E. church by the Rev. W. M. Whitsitt and burial will take place in East Hill cemetery.

David Overton and Six Others Get Out of Birmingham Prison

(By United Press.) Birmingham, Ala., March 20.—David Overton, convicted of the murder of Probate Judge Lawler, and under death sentence, escaped prison today with six other prisoners. Overton left Birmingham in an auto and it is believed that his friends planned the escape.

Overton's trial for murder was Alabama's most sensational murder case. Two suicides followed the death of Judge Lawler.

RELIEF FUND TO CLOSE TOMORROW

Last Opportunity for Giving Money to Add to Rush County's Contributions Will be Given

FUND IS ABOVE \$2,000 TODAY

Goal Set for County is Almost Reached and it is All Raised Within One Week

The Rush county fund for the relief of people who suffered loss of property in the tornado at Newcastle Sunday before last will be closed tomorrow. So if there are those who have been considering a subscription to the fund, they should make it at once so that the sum will serve to increase the total raised in Rush county.

The sum of \$71.74 was raised today and added to the fund, bringing the total to \$2069.24. This is going close to the goal set for Rush county, \$2500, just one week ago today. There were many who did not think it could be done, but in the short space of a week, almost the sum which practically everyone thought too high has been subscribed.

Mayor Bebout today sent a draft for \$42.54, which makes the total cash forwarded to date \$1321.79. This is regarded as a notable work on the part of the citizens of Rush county and is better than any other county outside of Marion and Delaware has done.

The local committee decided to close the fund tomorrow because about every person in Rush county has been reached by some means or other. No effort has been made on the part of those in charge of the fund to solicit. The contributions have all been voluntary and represent Rush county's regard for her neighbor who met with misfortune.

The most substantial subscription reported today was that from the Rushville public schools. The school children gave \$36.74. They made their donations last Friday, but all of the rooms did not report until yesterday.

The M. E. church donation was

WAR DEPENDS ON FATE OF THE FIRST ARMED AMERICAN LINER

WILL HAVE BANK AND AN ELEVATOR

New Salem Arranges for Location of Financial Institution with Subscription of \$27,500

TO ERECT BUILDING AT ONCE

Grain From Elevator to be Built Immediately to be Transported to Laurel in Trucks

A boom has struck the town of New Salem, the metropolis of Noble township. At a meeting yesterday a state bank was organized and Frank Wright of Brookville will in a short time start work erecting an elevator. The bank and elevator are expected to add new life to the town and the people of the township are putting forth every effort to make both projects a success.

The bank proposition has been under consideration for some time and yesterday the stock was subscribed and the board of directors elected. The board was empowered to make all arrangements, including the erecting of a suitable building for a bank home.

The bank—to be known as the New Salem State bank—will be incorporated with a capital stock of \$25,000 and it is planned to use \$2,500 for the building and equipment. At the organization meeting yesterday the \$27,500 in stock, to carry out the plans was subscribed. The stock has a par value of \$110 and has all been subscribed and will all be paid before the application for a charter is made. In all the stock is held by about 100 stockholders. More stock could have been sold yesterday so well did the idea of a bank take with the farmers and business men of the New Salem vicinity.

The directors elected were W. A. Norris, Date D. Barber, Spencer L. Ryan, John F. McKee and Charles J. Fisher. The only officer named by the directors was the president, this being given to John F. McKee. The other officers will be named as soon as possible.

The directors immediately began hunting for a location and at once took an option on the John O. Williams lot, just south of the general store.

Frank Wright who will erect the elevator, has started hauling material and will begin the erection of the plant within a few days. The elevator will be located on the southern edge of the town. Mr. Wright operates an elevator at Laurel. He plans to use Laurel as the outlet and shipping point and will use large auto trucks to carry the grain from the New Salem elevator to the railroad.

The citizens of New Salem have already planned for a big celebration and according to present plans the bank and elevator will be opened about the same time. On the day both are put in operation a banquet will be given and a celebration staged.

With a bank and elevator New Salem will have a rather unique distinction. Located in the center of a rich farming community will be the bank and elevator although no railroad passes through the town. New Salem is on the route of the proposed extension of the Indianaapolis and Cincinnati traction line.

The bank building will probably be a brick and stone structure and possibly two stories high. It is hoped to have the bank in operation not later than July 1.

William Ray Gartin who was operated on for appendicitis recently remains in about the same condition.

Avowal of Hostilities by President as Result of Sinking of Three Ships Saturday Unlikely

CONSIDER AGGRESSIVE PLANS

Wilson and Advisers Discuss All Phases of Problem at Meeting This Afternoon

DECLARATION UNNECESSARY

Many Contend State of War Has Existed Since Steamer Algonquin Was Sunk, Wednesday

(By United Press.)

Washington, March 20.—Actual declaration of war by the United States against Germany appeared today to depend upon the fate which will befall the first armed American liner.

It also appeared possible that an avowal of hostilities by the president against Germany will not result from the sinking of the three ships Saturday.

President Wilson has aggressive steps under consideration and this afternoon discussed all phases of the problem with the cabinet.

Certain members of the cabinet when they arrived for the conference at the white house were outspoken in their view that a state of war now exists with Germany.

While some said they believed a declaration of war unnecessary they were firm in their stand for preparations for hostilities.

They indicated that when the president next addresses congress he would say a state of war has existed with Germany since last Wednesday when the steamer Algonquin was sunk.

United States, Great Britain and France will join in guarding the trans-Atlantic ships against German U-boats if present government plans materialize.

The administration expects to open immediate negotiations with these governments through the state department and the British embassies here.

With its proposed big fleet of patrol and chaser boats, the United States will be in a position to offer protection to commerce off the American coast while Great Britain will be expected to reciprocate in the barred zone.

The New York navy yard began work today on forty submarine chasers while tomorrow bids will be opened for two hundred or more speed boats.

Mobilization of the Atlantic fleet and of the naval militia has been considered for two or more weeks.

FIXES RIGHT TO PREVENT STRIKES

This is Contention of Railroad Managers Regarding Supreme Court Decision Yesterday

THE BROTHERHOODS DISAGREE

(By United Press.)

New York, N. Y., March 20.—The Adamson law decision clearly establishes the right of the government to prevent strikes, railroad managers in a statement today declared. A difference of opinion has developed, brotherhood chiefs contending that the ruling of the supreme court does not give the government such power.

The switchmen's union which was awarded pay for 10 hours and working 8 hours by a board of arbitration recently will be taken up when the present contract signed for one year expires with the managers.

Furbelows and Flounces

Fashion decrees the returning to favor of the separate skirt and the making of a thing of furbelows, frills and flounces.

The stores—those "fashion indicators"—are already showing the new style notes and telling about them in their advertisements.

It used to be that the news columns of the newspapers made the fashion announcements first; but now days the stores are so alert and so anxious to be first in these announcements that much of the latest fashion news is in the advertising columns.

Any person who wishes to keep up-to-the-minute on the new fashions must be a reader of the advertising in live newspapers like The Daily Republican.

The advertising columns are the mirrors that reflect the attractions of the merchants and manufacturers. These men live by service.

They must make their advertising timely and interesting just as they make their merchandise desirable and fair in price.

The news of the frills and furbelows is only one side of advertising.

Read the advertising and keep informed.

WILLS LOCK OF HAIR.
London, March 20.—A lock of hair of Mary, Queen of Scots was one of the valuable possessions disposed of by the will of Major Sir Foster Hugh Egerton Cunliffe, who met his death on the field of honor in France. The will said the heirloom would be found in the Major's safe and was to go to Sir David Kinloch.

STOMACH SYMPTOMS

A leading physician of Chicago says: "Merely easing the pain with narcotics to give relief is a long way from cure for stomach trouble. Besides the danger of neglect or inadequate treatment may lead to more serious maladies. What appears to be only minor troubles are often the symptoms of gall stones, acute indigestion, gastritis, constipation, auto-intoxication, yellow jaundice, appendicitis, cancer and ulcers of the stomach and intestines, or other fatal ailments." Stomach sufferers should take warning. Do not have blind faith in treatment that are giving no results. Much suffering could be avoided, many surgical operations prevented, scores of lives saved had May's Wonderful Remedy been taken in time. It is not a long drawn out treatment. It acts on the very source and foundation of stomach, liver and intestinal ailments, eliminating from the system the hard, poisonous catarrhal accretions and shows them to you. Try a dose tonight—tomorrow your days of torture will be over and another friend will be added to nearly a million grateful human beings, many who declare May's Wonderful Remedy has saved their life. HAVE NOT RECOVERED FROM SLEET STORM

Telephone Lines From This City to Mays, Falmouth and Raleigh Still Out of Commission

LARGE FORCE OF MEN AT WORK

Telephone communication from this city to Mays, Falmouth and Raleigh is still cut off due to the effects of the sleet storm which visited the county one week ago last night. Over one hundred poles were weighted down and broken on these three telephone lines alone and despite the fact that the telephone company has had a large force of men working for the past week it will still be two or three days before the lines will be in working condition. The storm came just when the telephone company was congratulating itself on escaping any serious damage during the winter months. The telephone workmen have been handicapped on account of the condition of the ground. The ground has been completely saturated with water and the holes dug for the poles became filled with water before a depth of a foot was reached. This made the work slow and tedious. All other lines in the county are working, the northern part of the county being hit the hardest by the sleet storm.

DEFINITE PLANS TO LOCATE FACTORY LAUNCHED HERE

Continued from Page 1.
Maury expressed the belief that Rushville will co-operate on any enterprise that is found worth while. Mr. Dill then explained two offers which he had received for concerns that apparently are all right. This explanation was followed by a motion that the executive committee of the association be empowered to appoint a committee of such size as was seen fit to co-operate with Mr. Dill and Mr. Crowley to sift out a good factory proposition. Mr. Dill urged haste because of opportunities which needed attention at once and the committee was appointed after the meeting. Will M. Bliss said he did not understand exactly Mr. Crowley's scheme for locating a factory, but was under the impression that he had planned to organize a stock company and erect a building, and then find a factory to occupy it. In response to the question, Mr. Dill explained that had been Mr. Crowley's original idea but he had found that each factory needed a building to meet its particular needs, so that the original idea had to be abandoned. In addition to those already mentioned, short talks were made by Albert Winship, W. O. Feudner, Earl H. Payne, L. L. Allen, A. H. Schriebe, Frank Wilson, E. R. Casady, Warder Wyatt and R. H. Jones. In introducing one of the speakers, Mr. Trabue called attention to the coming constitutional convention and urged that all consider candidates on individual merits. He said we had all been fighting along political lines in elections, but this would be one occasion when politics should be forgotten. Mr. Trabue declared that the subject of taxation would be taken up by the convention and that it was probably the most important thing confronting the people of Indiana right now. He asserted that a man of good business judgment who knows how to apply his experience to all the fads and "isms" of the age would be needed as a delegate. Fifty men sat down to the banquet, which was served in four courses.

WILL GET REQUEST TO RAISE RAIL RATES

Congress Will be Asked to Grant Increases to Meet Extra Cost Due to Adamson 8-Hour Law

OFFICIALS MAKE ADMISSION

Washington, March 20.—Congress at the coming extra session will be asked to pass a law granting increased freight and passenger rates to the railroads to reimburse them for increased wages they will be compelled to pay under the Adamson eight-hour law, railroad officials and members of the interstate commerce commission said today. "Since the supreme court has decided that congress has the power to fix wages for the trainmen, then it also has the right to legislate railroad rates," a government official said.

GRAND DUKE INDUCED CZAR TO ABDICATE

This News Amends Grand Duke's Alliance With the People and Adds to Popularity

ACTION OF DUMA IS REVEALED

(By United Press.)
Petrograd, March 20.—The Grand Duke Nicholas amended his alliance with his people and added to his popularity today when it became known that it was he who induced the Czar to abdicate. It was revealed that the grand duke held a lengthy audience with the Czar and urged this step upon him prior to the revolution and the abdication declaration. One other step in the history making event made public was that the action of the Russian duma in resolving to overthrow the autocratic government was unopposed with the exception of 15 members who stood out for the establishing of a republican form of government without a vote by the people.

REFERS TO THE INTRIGUE

(By United Press.)
Washington, March 20.—While rejecting the Carranza peace plan and proposal for an embargo on shipments to the allies, President Wilson in his note to the Mexican government made public today, renews his suggestion for co-operation among neutrals for ending the war.

The president calls attention to the break in the relation with Germany and emphasizes the German-Mexican-Japanese plot recently discovered. The reason for mentioning this affair is taken to mean that Carranza despite several requests has denied all knowledge of it. These circumstances make it impossible for the United States to participate in the Carranza proposal for joint mediation at present.

Collars a Feature on The New Spring Coats

Garments that can be worn open as well as buttoned closely to the neck are emphasized in our stocks.

The plaited collar of the coat here-with illustrated is one of the season's best. Worn high about the neck, it is serviceable for cold days, and worn open it is a splendid summer wrap.

Styles are on straight lines, especially in the more staple garments that appeal to American Women. Belts and

double belts, odd-shape pockets, a few rows of stitching, a few well-placed buttons—all of these touches contribute to Spring's New Styles.

Coats are so new, so distinctive, that you will not want to wear the old one any longer. The new Baige shade will delight many this season. Other colors—Rookie, Periwinkle, Penelope, Young Leaf Green, Majenta and the perennially popular Navy.

Conditional Loyalty

Upon the condition that organized labor shall have "representation on all agencies determining and administering policies for national defense" a conference of labor leaders has adopted a resolution pledging its members, in peace or war, "to stand unreservedly by the standards of liberty and the safety and preservation of the institutions and ideal of our republic". Other conditions are stated, also; but that is sufficient as the basis for an analysis of a conditional pledge of loyalty.

The mere statement of this condition is an assumption that organized labor does not already have all the representation to which it is entitled under the institutions and ideals of the republic. Such an assumption is manifestly false. The Wilson administration was returned to power largely through the special efforts of organized labor. Organized labor has been freely consulted by the President. In fact, there was complaint prior to election that the head of the American Federation of Labor, more than any other one man, had the ear of President Wilson. Secretary of War Baker and Secretary of the Navy Daniels have long posed as the special advocates of the interests of the laboring man.

But it must not be overlooked that when organized labor asks for representation on any governmental agency separate and distinct from the representation which all other American citizens have, it is asking something in conflict with the "institutions and ideals" upon which the Republic was founded. Nowhere in the constitution nor in the debates attending the framing and adoption of that document, can there be found any intimation that any particular class of citizens should be entitled to special representation in any branch of our government. This is a government by all the people, of all the people and for all the people.

Because organized labor claims 3,000,000 members is no reason why it should have special representation.

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

There are more than 11,000,000 people engaged in agriculture, horticulture and forestry in this country, and they are asking no special representation on agencies for national defense. There are millions of workers in other lines than agriculture but outside the ranks of organized labor, and these are asking no speech representation.

Undoubtedly there are times, under the boss-ridden convention system of making nominations, when the working people of the United States could claim, with some show of reason, that they had not a due proportion of representation in the government. But the direct primary and the corrupt practices acts have changed all that. An overwhelming majority in both houses of Congress have been chosen in elections in which the vote of the poorest laborer in a factory counted as much as the vote of the chief owner of the establishment. The laborer on the farm or in factory had an equal voice with all other citizens in choosing public servants, and those chosen are the representatives of all.

Class loyalty conditioned upon class representation is no loyalty at all—no loyalty of dependable character. It is not the sort of loyalty the American citizen, either organized or unorganized, really feels. Temporarily overwhelmed by the consciousness of power, the labor leaders have expressed their own views and assumed them to be the opinions of the laboring people of the nation.

The true American places no condition or limitation upon his loyalty. He never has and he never will.

If we have to raise a great army there will be one grand rush to enlist, for soldiers are fed on SPUDS and BEANS.

This censoring the American press may be advantageous, but it has its drawbacks as well. Under its operation even the wildest of the yellow journals can not scare up more than a dozen war thrills a day.

The kaiser is welcome to all of Carranza he can swallow. We have too much regard for our stomach to even want a nibble.

Any one can "hang out the flag," of course. But how many will follow it?

RIGHT LINE BUT WRONG STOP

Walter Weaver Got Off Here and Landed in Police Court

It was the case of the right line but the wrong stop for Walter Weaver, colored, in police court Monday. He stated that he was enroute from Indianapolis to Cincinnati and intended taking the traction line as far as Connersville. Instead of going to Connersville he got off in the city. Weaver carried a basket of groceries with him when arrested late Saturday night. The police at first thought that he might be wanted in Indianapolis, but as there was no charge against him he was released.

SAYS HIS FAITH IS UNLIMITED

Tanlac's Work in Wife's Case Makes Elkhart Man One of New Remedy's Boosters.

Elkhart, Ind., March 19.—"I have unlimited faith in Tanlac's power as a medicine," J. F. Phipps, paper hanger, of 900 Cedar street, this city said on January 26, Mr. Phipps is pleased with the new medicine because of benefits his wife derived from its use. Concerning his experience, he said.

"For thirty years my wife has suffered from stomach and kidney trouble and for a long time she also has been in an extremely nervous condition. Her appetite was very poor and the little food she did eat caused gas to form in her stomach and was never digested properly. She had almost given up hope of ever being any better when we heard about Tanlac.

"We read several statements in the papers given by people whom Tanlac had helped and everybody seemed to be so well pleased with the new medicine that we decided to try it. My wife has taken only two bottles of Tanlac now but the stomach and kidney troubles have disappeared entirely. In short, she has derived wonderful benefits through use of this medicine. Our daughter-in-law intends to take Tanlac now. She has watched Tanlac's work in my wife's case and believes it will help her in the same manner."

Tanlac, the Master Medicine, is especially beneficial for stomach, liver and kidney trouble, catarrhal complaints, nervousness, loss of appetite and the like and is fine for relieving the after effects of colds, la-grippe, pneumonia and the like.

Tanlac is now being specially introduced and explained in Rushville at F. E. Wolcott's Drug Store; in Arlington at Mrs. L. T. Davis's; in Cayhage at J. H. McCarthy and Sons; in Milroy at Barton's and Sheppards.—(adv.)

PROMINENT MEN LOVERS OF GAME

Interesting Figures Compiled Show That Trap Shooting Has Large Following.

VICE PRESIDENT IS ONE

Roosevelt Never Had Much Liking For Breaking Clay Birds—Some Are Experts.

BY H. C. HAMILTON.
(U. P. Staff Correspondent.)

New York, March 20.—Interesting figures compiled by Peter P. Carney, Philadelphia booster of trap-shooting, show that many men, well known in this country, are ardent devotees of the trap game.

Among them he names Vice President Thomas R. Marshall, King George of England, King Alfonso of Spain, King Victor Emanuel of Italy, Gov. Walter E. Edge of New Jersey, Gov. Brumbaugh of Pennsylvania, Gov. Capper of Kansas, former Gov. Major of Missouri, former Gov. Wert of Oregon, Gov. Ferguson of Texas, John Philip Sousa, the bandmaster, and many, many lesser lights in the public light.

Theodore Roosevelt and Amos Pinchot, Carney writes, are two men who long ago realized the value of outdoor exercise as personified in the use of a gun, but these two, he admits, have never displayed any great hankering for the tame method of killing birds built of clay.

Carney picks out a few mayors for public approval who are trap enthusiasts. Charles A. Fleming, mayor of Spokane, Wash., he says, broke 90 percent of the targets thrown for him at the Northwest Sportmen's association shoot last summer.

R. E. Duval, mayor of Belleville, Ill., a year ago tied for first place in the Southern Trapshooting Handicap at Memphis.

Mayor Thomas B. Smith of Philadelphia, is a member of a gun club and often takes part in contests.

NOTICE For the Improvement of a Highway in Jackson Township, Rush County, Indiana.

Notice is hereby given that a petition has been filed in my office for the improvement and widening of a highway in Jackson Township, Rush County, Indiana, which petition is in the words and figures following, to-wit:

To the Honorable Board of Commissioners of Rush County, Indiana: In the matter of the petition of Robert Holt et al. for the improvement of a highway in Jackson Township, Rush County, Ind. Come now the undersigned and respectfully show to your Honorable Board that more than fifty of the undersigned petitioners are resident freeholders and voters of Jackson Township, Rush County, Indiana, and that said Jackson Township does contain an incorporated town or city of thirty thousand inhabitants and contains no incorporated town or city.

Your petitioners would further show to your Honorable Board that there is now and has been for a number of years that a public highway in said township described as follows: Beginning at a point in the center of the highway at the southwest corner of the northwest quarter of Section 10, Township 14, Range 9 east, on the highway line of Jackson Township and the west line of Jackson Township, thence due east through Sections 10 and 11, Township 14, Range 9 east, to a point where said road connects with the Robert Nixon et al. road.

Said petitioners would further show that the above described highway should be graded, drained and paved to the width thereof as now established, and that the same should be improved by grading, draining and paving the same with washed gravel and tar binder, or some other first class binder, or crushed rock, and macadam and a good binder or with concrete and that the same so graded, drained and paved will be of public utility.

Your petitioners would further show to your Honorable Board that said highway proposed to be improved is all in Jackson Township, Rush County, Indiana, and that the same is less than three miles in length and connects at the west end thereof with the Jackson Township line, and that the east end thereof connects with the Robert Nixon et al. road; and that a United States rural mail route passes over and along said highway.

Your petitioners would further represent that in view of the importance of said highway and the great amount of travel thereon, that it would be to the best interest of all the taxpayers in said Jackson Township, Rush County, Indiana, to have the same graded, drained and paved with some first class and permanent road material and they respectfully recommend that said highway be so graded, drained and paved in such manner.

CHURCH DANCES ARE THE LATEST

Ministers and Conservative Members Speculate on Success of Venture

OTHERS TO TAKE UP MOVIES

(By United Press.)

Richmond, Ind., March 20.—Ministers and many of the more conservative church members of the city are speculating as to the success of a new social system started by the Rev. R. D. Baldwin, rector of St. Paul's Episcopal church. Rev. Baldwin announced that he would permit dancing in the parish house.

Another step which the Richmond ministers are proposing to start, is the universal use of motion pictures in churches Sunday night to increase attendance at the services. The Ministers' association is considering the proposition. Popular film favorites will be booked and admission to the picture show will be contingent on attendance at the preceding sermon.

USE SINN FEINERS FLAG

Irish Display Colors of Revolutionists in Frisco.

(By United Press.)

San Francisco, March 20.—A green, orange and white flag—the same colors which waved over Dublin last Easter when Patrick Pearse and his followers rebelled against English rule—were the colors which decorated the Civic Auditorium today when San Francisco celebrated St. Patrick's Day. The flag was unanimously adopted by the St. Patrick's Day convention of several thousand Irishmen and friends of Ireland.

A parade of several thousand persons opened the day's festivities, which ended officially when exercises were held in the Auditorium.

BABY WEEK WORK TO SAVE MOTHERS

Plans For Celebration Include a Huge Educational Movement to Reduce Death Rate.

CHANGED SOME THIS YEAR

Heretofore Work Was For Saving Babies But Now it is to be Enlarged.

(By United Press.)

Washington, March 20.—Plans to make Baby Week celebrations throughout the country this year from May 1 to May 6, a huge educational movement for the reduction of mortality among women at childbirth are under way at the Children's Bureau of the Department of Labor today.

Baby Week celebrations in the past have been directed more towards reducing infant mortality. The fact, however, that 15,000 mothers are dying annually from conditions incident to child-birth has opened up an even greater problem, the Bureau announced. Ignorance and neglect are the prime causes for this high mortality.

"Many women," one official at the Bureau said, "do not seem to realize how much their own health and the health of their children depends on the intelligent care of the mother before her baby is born. Baby week can help mothers in various ways and it will be made the starting point, this year, for certain concrete activities."

Plans now being completed, will include centers for mothers living in the country to gather and take prenatal educational work. The needs of rural mothers are less generally understood than those of city mothers and a rural nursing service is urged as one means of reducing the mortality rate in sections far removed from the city.

MUNCIE HOTEL CLERK EXPLAINS HANDSHAKING

(By United Press.)

Muncie, Ind., March 20.—The psychology of handshaking, as explained by Robert O'Shaughnessy, clerk at the Hotel Kirby, follows:

"The farmer and laborer, of course have callouses on their hands and cannot be mistaken. The man who has soft hands and says he is a farmer, arouses our suspicions.

"A minister is likely to hold your hand as long as you will let him. A traveling man usually gives a hard, quick grip. A doctor is inclined to advance his finger to your wrist. You get the idea of his wanting to feel your pulse.

"The lawyer is a frequent gripper. He has a tendency to try you on all of the fraternal orders of which he may be a member. He has developed the gripping habit at college and found it a valuable asset in his business, especially if he is a politician. Their clasps is a cross between that of a preacher and a salesman.

"A firm grip may be taken as a mark of sincerity. With your friends, it betokens more than a pleasure at seeing you indicates honesty and fairness."

DOYLE ASSISTS FLAPPERS

Creator of Sherlock Holmes Convinces London.

(By United Press.)

London, March 20.—A Conan Doyle, creator of Sherlock Holmes, has convinced London that there are too many flappers on the streets for the entertainment of soldiers and he has engineered the establishment of a number of "Bring-Your-Girl" clubs where the soldiers and their flappers can go and have a good time.

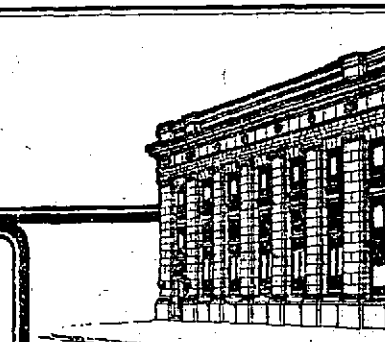

Lady Betty Belfour conceived the plan and a number of clubs have been organized. Lady Emmett was first to respond, equipping two club-houses. Each has a girl's club-room, a men's smoking room, a billiard room and two recreation rooms.

Indianapolis—The third annual exhibition of the Indiana Cycle Show associations opened today at Tomlinson hall.

Mrs. Merrill Ball will entertain the members of the Social Dozen at her home in North Morgan street on Thursday afternoon of this week.

The divisions of the Immaculata Sodality are meeting in two places this evening. The first and second divisions are to be entertained at the home of Miss Sylvia Mallins and the third division is to meet with Miss Mary Moorman. The evening will be spent in making articles for the Easter Bazaar to be conducted by the Sodality.

A large number of friends gathered at the home of Mr. and Mrs. Herbert Gilson at their home at 820 North Sexton street last evening honoring the birthday of their daughter, Frances Katherine. The company came in about 8:30 and a series of games and musical selections on the Victrola followed. To the pretty music, the guests engaged in dancing. Pink and green were the predominant shades in the dainty two course luncheon which was served. Among the guests were several from out of the city, among them being Albert Barley, Robert Walke the Misses Arvien and Mary O'Brien of Connersville.

Mr. and Mrs. Charles Benning were very pleasantly surprised Sunday noon at their beautiful country home south of the city by a number of relatives and neighbors. The pitch-in dinner was given in honor of the birthday of Mrs. Benning. Those spending the day together in this pleasant manner were Mr. and Mrs. John Benning, Mr. and Mrs. John Vernon, Mr. and Mrs. Will Campbell and son, Charles, Mr. and Mrs. Thomas Hungerford, and children, Mr. and Mrs. Robert Campbell, Mr. and Mrs. John Campbell, Mr. and Mrs. Elmer Brannan, Mr. and Mrs. H. C. Webb and son, Mr. and Mrs. Earl Priest and children, Mr. and Mrs. Rue Webb, Mrs. Israel Piper, and Mrs. Elizabeth Laughlin.

Loyal Women's Bible class of the Christian church, in church parlors at 2:15 p. m.

Psi Iota Xi, with Miss Marie Clawson at 325 West Seventh street, in the evening.

Loyal Daughters of Christian Sunday School, with Mrs. Charles Brown at 232 East Second street, in the evening. Assisting hostesses, Mrs. Fred Brown, Mrs. Theodore Abercrombie, Jr., and Mrs. Ernest Church.

Band of Workers of First Presbyterian church in church parlors, in the afternoon.

Wednesday Afternoon Card Club, with Miss Bertha Helm at 235 West Third street, in the afternoon.

Young Women's Missionary society of United Presbyterian church, with Mrs. Dora Edwards at 821 West Tenth street at 2 o'clock.

Mrs. Ed Chambers was elected president of the Musicales for the year beginning in September at the meeting of the Musicales held in the assembly room of the court house yesterday afternoon. The other officers elected were: Miss Norma Smith was re-elected vice-president; Miss Wanda Wyatt was elected secretary; and Miss Edith Buell elected treasurer. Another plan discussed during the business meeting was the giving of a noon lunch on Saturday March 31, in the room formerly occupied by Polk's hardware store. This fund will go toward the support of the music student which the Musicales is endeavoring to support this year.

Announcement was made of the meeting which is to be held April 2, for which an unusually interesting program is being arranged. At this time, the members of the Connersville Musicales will be the guests of the local musical organization. At one of the recent meetings, the local Musicales went to Connersville where they were entertained by the Musicales there at the home of Mrs. Clarence Waldron. Another meeting in the near future which will be one of the special meetings of the year will be the observance of Mother's Day on May fourteenth when the girls of the Musicales are to furnish the entire program.

Because of its novelty as well as because of the excellent rendition, the program yesterday was a very entertaining one. Mrs. Lon Kennedy, who had charge of the program on "Life Study in Tones," dealt with it in an unusual as well as delightful manner. Starting with the youth in babyhood, she led him through boyhood, his experiences as a lover, his marriage, his going to war, old age and death. Each of the stages was spoken of by Mrs. Kennedy, some of them being illustrated by readings and monologues by her which were well rendered. Each of the stages, too, was represented by several musical numbers appropriate in theme.

For the division of the program, "Infancy," Mrs. Will Amos sang a slumber song and Miss Norma Smith played a piano solo. "Boyhood" was illustrated by piano solos by J. Deryl Case and Wallace Beer and a vocal solo by Pauline Piper. The experiences of the young man as a lover were represented by a vocal solo by Mrs. Charles Offutt and piano solo by Miss Charlotte Tribbey. Miss Edith Baell sang a solo and there was a piano quartette of Mendelssohn's Wedding March for the "Wedding." As a "Soldier" the young man was represented by the "Cradle Song of 1915" sung by Miss Norma Smith and a piano quartette played by Miss Madden, Mrs. Chambers, Mrs. Bebout and Mrs. Aldridge. "Maturity" was represented by a trio rendered by Mrs. Francis Moor, Miss Leonora Norris and Mrs. Wal-

cott, Mrs. Parke and Mrs. Chambers played a duet and Mrs. Will Amos sang a solo for the stage "Old Age," and the close of the program was marked by the funeral march played by Mrs. Parke, Mrs. Bebout, Miss Madden and Mrs. Aldridge.

Invitations are out for the Kappa Alpha Phi dance to be given in Newcastle on March thirtieth in the Chambers-Baily hall for which music will be provided by the Mitchell orchestra of this city. It is to be an April fool dance.

Several promising plans for joint socials for the members of the Loyal Daughters and the Young Men's Circle of the Christian Sunday school were made at the meeting of the officers and the social committee of the two classes held at the home of the Rev. and Mrs. C. M. Yocum last evening. The entire evening was given over to the discussion of matters concerning the two classes.

A very pleasant evening was spent at the surprise given on Miss Bertha Whitton at her home north of Henderson on Saturday evening. The time was given over to the playing of games and enjoying several musical numbers. Dainty refreshments were served. Guests for the evening were the Misses Lena Vaughn, Josephine Junken, Inez Abernathy and Lavonne Lucas, and Ralph Jones, Clement Poston, Clarence Newhouse, Roy Ward and Ray Lucas.

At the meeting of the Watson Sunday school class held at the home of Mrs. James E. Watson last evening, several matters were decided upon by the 25 class members present. Ten dollars were pledged to the fund for Newcastle. It was also decided to serve a lunch at noon on Saturday of this week in the room formerly occupied by the Polk hardware store, beginning at 11 o'clock. A pleasant social hour followed when light refreshments were served.

GAINED TWENTY-FIVE POUNDS IN TWO MONTHS

KNOWING THAT SHE WAS GOING DOWN IN WEIGHT, HEALTH AND ENERGY, THIS LADY FINALLY FOLLOWED THE ADVICE OF FRIENDS AND TOOK PEP-SINCO.

For many years Mrs. G. suffered with indigestion. She could get no help. She doctored and took most every stomach remedy her friends recommended, but got little relief. She lost in weight till she was apparently nothing but skin and bone. What she ate as a rule caused misery and pain. She would bloat and was seldom without headache. Nothing agreed with her. She would get up in the morning with a bad taste-coated tongue and feeling of dizziness. The slightest odor of savory foods nauseated her. She passed the day in misery and went to bed tired, worn-out and hungry.

This lady read, as you are doing, of Pepsinco. She heard of Pepsinco. Her friends used Pepsinco and were helped, but she thought Pepsinco was like other stomach remedies, helpful in minor cases only.

She was finally prevailed on to get a small package of Pepsinco. The first package did her so much good that she continued their use until, after a few weeks, she could eat with a relish ordinary foods.

In exactly two months she came up to her normal weight. Today she is happy and has every reason to be so. Her main trouble was indigestion, and Pepsinco is the best preparation to be had for indigestion and kindred ailments.

Pepsinco will help you, if you have the least trouble with your food. Sour stomach, sick headache, bloating, nausea, biliousness and heartburn are symptoms that Pepsinco will remedy. Don't doubt another minute, do as this lady did—get a small package and try it today. All druggists have it, or we will send a trial package free of charge if you will send your name to The Neuro Pharmacal Company, Wapakoneta, Ohio.

THINKS UNIVERSAL BILL WILL PASS

Senator James E. Watson, Sponsor
For Military Training Measure,
is Hopeful For It

COMING UP AT EXTRA SESSION

Senator From Indiana Believes Army
Bill Will be Benefit to Youth
of United States

Senator James E. Watson, who is
now on his way home from Wash-
ington, believes that the universal
military training bill will be passed
at the forthcoming extra session of
congress next month, according to a
statement given out at Washington
shortly before departing for Indiana.
Senator Watson, who is one of the
foremost promoters of this piece of
legislation, said, according to a
Washington dispatch:

"I believe that Congress will pass
a universal military training bill at
the coming extra session, I am for it,
heart and soul. It would be a great
thing for the youth of the land as a
matter of discipline, if for no other
reason. We have in this country to-
day a lot of idle, cigarette-smoking
boys who hardly know what the
word 'obedience' means. Compul-
sory military training would improve
the quality of our young manhood
immensely. Under a system of uni-
versal military training we could do
away with a standing army alto-
gether. Such a system would cost
the country about \$50,000,000 a
year, but in an era such as we have
reached when Congress appropriates
money with a scoop shovel that is
not relatively a large amount com-
pared with the other enormous ap-
propriations."

The plan of universal military
training advocated by Senator Wat-
son would require all young men
between 17 and 22 years of age to
give eleven months to military train-
ing. After the eleven months of
training they would have to spend
two weeks training in every year for
ten years in order "to brush up on
military tactics" as Senator Watson
expresses it.

Senator Watson has introduced in
congress "by request" the universal
military training bill prepared by
the general staff of the army. With
it he presented to the senate the
elaborate report prepared on the
subject by the general staff and ex-
pected to have it printed as a docu-
ment, to be circulated among the
people, but so far pacifist influences
have prevented it from being printed
by the government. However, the
bill has been printed and many
copies of it are being sent out. In-
diana is regarded as a pacifist state
and in order to ascertain just how
strongly it is committed to pacifism
Senator Watson is sending out many
letters to acquaintances to test out
the sentiment in their localities.

Chalmers 7-Passenger Touring Car
Price \$1350 Detroit

Full Value for Every Dollar In this Chalmers, 7-Passenger Touring Car

Scan the list of other 7-passenger cars for the equal of
this Quality Chalmers. You will not find it. Only in
this Chalmers are combined so many real values. You
may pay \$300 to \$500 more and find nothing better.

Only a builder of long experience
and with a yearly output of thou-
sands could produce this car at so
low a price. Only thus can quality
of materials and of manufacturing
be combined with economy of pro-
duction. Because Chalmers does
this is the reason why this Chalmers
7-passenger Touring Car has no
competition at anywhere near its
price of \$1,350.

They shift easily, without clashing,
and properly used are practically
indestructible. The Chalmers type
of dry-plate, disc clutch is far in ad-
vance of other designs. Chalmers
rear axle is the same as used in ex-
pensive foreign and American cars.
It is silent, efficient, economical.

A Big Beautiful Body

Big—122 inch wheelbase. Beau-
tiful—because graceful in form,
hand-finished in Chalmers shops,
upholstered in genuine pebble-grain
leather, with new Scotch "fluted"
finish. Auxiliary folding seats, Pan-
tasote top, curtains open with the
doors, fasteners are the "lift the
dot" pattern.

Compare Quality— and Price

Think how great the difference
between this quality Chalmers and
other cars. Realize what unusual
value is here offered. You will go
much higher in price before you will
find any other to please you so well.
And all these claims we submit for
your decision. Come—try the car.
Investigate. Then only can you
decide.

These Prove Quality Claims

Chalmers claims a motor of unex-
ampled smoothness, of unusual
power. Prove it by examining
Chalmers Lynite pistons, 1/3 the
weight of the usual cast iron. These
give smoothness, less strain on
bearings, admit of higher power.
Compare the Chalmers crankshaft
with others. It is one-piece, special
steel, drop-forged, balanced in mo-
tion to a fraction of an ounce.

Gears are crucible nickel steel,
case-hardened and heat-treated.

BODY OF MURDERED MAN SENT TO OLD HOME

Thomas Cooper, is Assaulted by
Room-Mate Saturday Night at
Connersville and Dies Sunday

BODY TRANSFERRED HERE

The body of Thomas Cooper, a
machinist, formerly of Shelbyville,
who was murdered in Connersville
late Saturday night by two friends
in a fight over a dollar, was trans-
ferred here Monday while en-
route from Connersville to Shelby-
ville where the funeral will be held
and burial will take place.

William Eads and Harry Taylor,
also former residents of Shelbyville,
are held in the Fayette county jail
charged with slashing Cooper's
throat with the intention of killing
him. Cooper died early Sunday
morning and just before death im-
plicated Eads, whom Cooper said,
stabbed him with a knife when he
refused Eads a dollar. Cooper also
said Taylor struck him over the
head. Both Eads and Taylor were
informed when arrested Sunday.

Cooper's body was found lying in
a pool of blood in the business dis-
trict of Connersville late Saturday
night by W. E. Sparks. He was re-
moved to his rooming house and re-
vived. When told he had but a few
hours to live, he told the story of
the assault. The Fayette county
grand jury is conducting an inves-
tigation.

Moline-Universal Tractor Horse vs. Motor Power

Edison says: "A horse is the poorest motor ever built. He eats 12,000 pounds of food a year. He eats the whole output of five acres. And yet his thermal efficiency is only two per cent."

On the road, the automobile and truck have displaced the horse. For driving and delivery work he is rapidly becoming a rarity. Even the most skeptical cannot close their eyes to this wonderful transition which has taken place almost in a night.

From time immemorial the horse has been the servant and companion of man. About him has been built a vast sentiment—and well deserved it is. His almost human intelligence, willingness and self sacrifice, have endeared this noble animal to mankind. But he belongs to the days of cheap land and cheap labor.

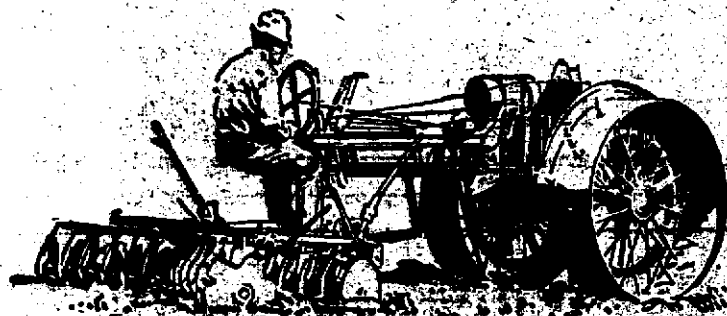

Mechanically the horse is built wrong. All the pulling is done with one hind leg, and the power is transferred through his back to the collar. The front legs merely serve to support his body. The fuel he uses is bulky, which makes the cost of utilizing it excessive.

Economically the horse has not kept pace with modern methods and costs. The value of horses has increased 143% during the last ten years. Feed and cost of care, and everything that concerns him has increased proportionately. Yet he has not increased in power or endurance. The annual feed bill for the 25,000,000 horses and mules in the United States is \$2,000,000,000—equal to the cost of operating our railroads. Yet a farm horse averages only 3 1/2 hours work a day through the entire year, and tires in six. It costs from ten to twelve cents per working hour to maintain a horse, and requires 23 minutes a day to care for him, or fourteen ten-hour days a year. The cost of horse labor is almost one-half the gross operating expense on the average farm.

Most wide-awake farmers and users of horses realize these facts, and there is an insistent demand for cheap, efficient power. Scientific farming methods demand deeper plowing, more thorough soil tillage, more frequent cultivation, more speed—in short, more concentrated power.

Think of the vast areas of land, now used to raise horse feed, that would be released for human use; the extra men now required to care for horses who could do other work; the time and money saved; the drudgery done away with; the wonderful increase in efficiency, when the horse is displaced by motor power.

The problem of displacing the farm horse has been difficult. The many kinds of work, changing and unusual working conditions, and the adaptability of the horse, have made it much more difficult than simply displacing him on the road. Surprising as it may seem, in spite of the automobile industry, which is now one of the largest in the country, the number of horses and mules has increased during the last ten years. According to the department of agriculture, there were 25,731,000 horses and mules in the United States at the beginning of 1916; 25,674,000 in 1915; 24,148,680 in 1910;

show the auto, truck and ordinary tractor have failed to displace farm horses. The solution of this problem is the Moline-Universal tractor. These figures are explained by the fact that more land is being farmed each year, and better methods are being used, which require more power. They also

commissioner, marshal and three trustees. Frank Stamm is clerk and treasurer; M. B. Wright is street commissioner; Monroe Brooks is marshal and S. D. Turner and W. C. Runyan are two of the trustees, the third—Bert Timberman—having resigned. No one has been appointed to fill the vacancy. It is believed by some people that his successor should be selected and others think it unnecessary because there will be an election next fall. Glenwood has more miles of cement sidewalk to the number of people than any town in the state and it is also better drained than most towns. The surrounding country can not be bettered for farming and stock raising. Hogs are the principle kind of stock raised. There are two churches, a public school building, three church organizations, two Sunday schools, two general stores, a harness shop, an ice cream parlor, a hotel, pool room, two barber shops, two garages and two blacksmith shops.

The lecture course organization did not net more than five dollars at the supper Friday night at Osborne's hall. The members of the organization will sell lunch at the combination sale Thursday, March 22. The sale promises to be nearly as large as the last one. There are less miscellaneous articles to be offered for sale, but more stock.

The Rev. Daniel Ryan preached a very impressive sermon at the Methodist church Sunday morning. Mr. and Mrs. McCormick have transferred their membership from Connorsville to the church here.

The usual services were held at the United Presbyterian church Sunday afternoon.

The Christian church holds services morning and night on the first Sunday of each month.

Perry Meek has gone to Martinsville for a few weeks' treatment and John Reed has returned from there, where he has been spending the winter.

Ross Jinks and Charles Fulton have returned from Florida much improved in health.

Many automobiles have mired down in the mud holes in the Rushville pike between Earl Ruff's and John Fulton's farms lately. The road is in very bad shape.

Most of the children who were out of school on account of measles have recovered. There are only four more weeks of school here. Many believe an effort should be made to make this a certified school by having an eight-months term.

An attempt will likely be made to enforce the old "blue laws" here and close every place of business in town on Sunday.

Several from here visited New Castle this week and saw the ruins left by the tornado.

To the Farmers!

Having tried the creamery business through the worst time of the year for cream, I have secured a written lease on the local creamery and am here to stay. I aim to make friends by dealing honestly with the public. That is the only policy that will win.

Do you think it justice to make one suffer for another person's failure? I have risked more this winter to try out the creamery than any farmer will ever risk in selling his cream to me. Some have wondered that we have been able to stay during the winter on such a small amount of cream. "There is a reason." In the first place, I am the only stockholder in the Burchard Creamery Company and I am running it on one-third the expense it cost the stock holding company.

We have worked up a good sweet cream trade and receive a good price for our buttermilk. The men having stock in the old company gave all of their time to other business. They hired men who cared more for themselves than for the success of their employer and ran the

creamery to suit themselves. Their butter was of poor quality and had to be sold mostly to commission houses. That was a sure road to failure.

I have a good butter maker. Ask any storekeeper in Rushville about our butter. We sell it all to stores and restaurants at the top price. The grocery keeper wants us to stay, Don't you?

The history of nine out of ten stockholding creameries is failure, but who ever heard of a creamery run by an individual to fail? Home industries should be supported by home folks, so long as an honest policy governs it. I am getting cream 70 miles away, from my relatives and friends. If they who know me, can trust me, why can't you? Give us a trial and we will not disappoint you. With your cream we can succeed and you will not lose by giving us your support.

For my financial responsibility, I refer you to the Peoples National Bank, where I carry my account.

Yours for success,

Harry Burchard

Nature Lovers and Civic Workers Plan to Stage Event and Use Proceeds for Park

HUNDREDS WILL TAKE PART

Production Will Cost \$15,000 and Will be Under Direction of Pittsburgh Mah.

Chicago, Ill., March 20.—To save as a national park the beautiful stretch of sand dunes that border Lake Michigan along the Northern Lake coast of Indiana is the object of the project undertaken by a body of nature lovers and civic workers, who are planning to present a historical pageant and masque on the wooded hilly stretches of the dunes.

The Dunes Pageant Association which is incorporated by some of the leading men and women from the varied circles representing the arts, civic, religious, business and other walks of life, is based on the vision of these people who are looking to save from commercialism a region a mile wide and fifteen miles long, which is said by nature lovers, scientists and artists to surpass in beauty any other spot in the Great Lakes territory and is unique in its natural formation.

The pageant and masque will be presented May 20 and June 3 on a spot within the area of the dunes, along the southern shore of Lake Michigan. The arrangements will be under the direction of Thomas Wood Stevens of Pittsburgh.

Cost of the production will be approximately \$15,000 and hundreds of persons will take part.

WHAT-YOU-MAY COLUMN

BY "GM." Furniture.

Do you live on your furniture, or for it?

Every once in a while our wife gets the idea that furniture is something sacred. And she gets to lavishing more loving care on rugs and racks and tables and chairs than she does on us.

Maybe that's natural. The furniture's home more than we are. But we resent the alienation of our wife's affections by gate-leg tables and things just the same. We are in favor of chairs to sit in. Pillows to lie on. Carpets that can take a little granulated tobacco without getting sick at the stomach, and lace curtains that can be crumpled out of the way when the occasion demands.

We want a house with nothing in it that can't be abused with impunity.

Fred Suhre of Columbus grew 530 bushels of shelled corn on five acres, or an average of 106 bushels per acre, at a cost of only 14 cents a bushel, and won the 1916 Corn Championship of Indiana.

Suhre Farm Results, 1916

Corn fertilized with Swift's Fertilizer, containing ammonia and phosphoric acid, produced an increase per acre over the unfertilized of	19 bu.
Corn fertilized with only acid phosphate produced an increase per acre over the unfertilized of	9 bu.
Additional yield per acre from the ammonia	10 bu.

Norris McHenry, 1914 State Champion Corn Grower of Indiana, had the following results on two five-acre plots:

Where Swift's Fertilizer was used, the average yield per acre was	112.1 bu.
Where competitors' fertilizer was used, the average yield per acre was	93.1 bu.
Additional average yield per acre where Swift's Fertilizer was used	19 bu.

The results from the Suhre and McHenry farms prove that Swift's Fertilizers are the best, and that Swift's Fertilizer containing ammonia is the most profitable.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

The ladies of the Baptist church will give a penny supper in the basement of the church, Wednesday evening, March 21st.
